WARNING

To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.
To avoid electrical shock, do not open the cabinet. Refer servicing to qualified personnel only.
The AC power cord must be changed only at a qualified service shop.

CAUTION

The use of optical instruments with this product will increase eye hazard. As the laser beam used in this Blu-ray Disc player is harmful to eyes, do not attempt to disassemble the cabinet.
Refer servicing to qualified personnel only.

This label is located on the laser protective housing inside the enclosure.

Note

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

For customers in the U.S.A
If this product is not working properly, please call 1-800-222-7669.

Owner’s Record
The model and serial numbers are located at the rear of the unit. Record the serial number in the space provided below. Refer to them whenever you call upon your Sony dealer regarding this product.
Model No. BDP-S300
Serial No.__________

For Customers in Canada
If this product is not working properly, please call 1-877-602-2008 for Peace of Mind Warranty Replacement service.
For other product related questions please contact our Customer Information Service Center at 1-877-899-7669 or write to us at: Customer Information Service 115 Gordon Baker Road, Toronto, Ontario, M2H 3R6

Notes About the Discs

- To keep the disc clean, handle the disc by its edge. Do not touch the surface.

- Do not expose the disc to direct sunlight or heat sources such as hot air ducts, or leave it in a car parked in direct sunlight as the temperature may rise considerably inside the car.
- After playing, store the disc in its case.
- Clean the disc with a cleaning cloth. Wipe the disc from the center out.

- Do not use solvents such as benzine, thinner, commercially available disc/lens cleaners, or anti-static spray intended for vinyl LPs.
- If you have printed the disc’s label, dry the label before playing.
1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments/accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

---

**Important Safety Instructions**

**Precautions**

**On safety**
- To prevent fire or shock hazard, do not place objects filled with liquids, such as vases, on the apparatus.
- Should any solid object or liquid fall into the cabinet, unplug the player and have it checked by qualified personnel before operating it any further.

**On power sources**
- The player is not disconnected from the AC power source as long as it is connected to the wall outlet, even if the player itself has been turned off.
- If you are not going to use the player for a long time, be sure to disconnect the player from the wall outlet. To disconnect the AC power cord, grasp the plug itself; never pull the cord.

**On placement**
- Place the player in a location with adequate ventilation to prevent heat build-up in the player.
- Do not place the player on a soft surface such as a rug.
- Do not place the player in a location near heat sources, or in a place subject to direct sunlight, excessive dust, or mechanical shock.
- Do not install the player in an inclined position. It is designed to be operated in a horizontal position only.
- Keep the player and the discs away from equipment with strong magnets, such as microwave ovens, or large loudspeakers.
- Do not place heavy objects on the player.
- Do not install this player in a confined space, such as a bookshelf or similar unit.
- Install this player so that the power cord can be unplugged from the wall socket immediately in the event of trouble.
- Do not expose the battery to excessive heat such as direct sunlight, fire or the like.

**On operation**
- If the player is brought directly from a cold to a warm location, or is placed in a very damp room, moisture may condense on the lenses inside the player. Should this occur, the player may not operate properly. In this case, remove the disc and leave the player turned on for about half an hour until the moisture evaporates.
- When you move the player, take out any discs. If you don’t, the disc may be damaged.

**On adjusting volume**
Do not turn up the volume while listening to a section with very low level inputs or no audio signals. If you do, the speakers may be damaged when a peak level section is played.

**On cleaning**
Clean the cabinet, panel, and controls with a soft cloth slightly moistened with a mild detergent solution. Moreover, wipe the glass part on the front panel with a soft, dry cloth. Do not use any type of abrasive pad, scouring powder or solvent such as alcohol or benzine.

**On cleaning discs, disc/lens cleaners**
Do not use a commercially available cleaning disc or disc/lens cleaner (wet or spray type). These may cause the apparatus to malfunction.

**On replacement of parts**
In the events that this player is repaired, repaired parts may be collected for reuse or recycling purposes.

About this manual

Instructions in this manual describe the controls on the remote. You can also use the controls on the player if they have the same or similar names as those on the remote. The meanings of the icons used in this manual are described below:

<table>
<thead>
<tr>
<th>Icon</th>
<th>Meaning</th>
</tr>
</thead>
<tbody>
<tr>
<td>BD</td>
<td>Functions available for BD-ROMs including DL discs.</td>
</tr>
<tr>
<td>DVD</td>
<td>Functions available for DVD VIDEOs and DVD+RWs/DVD+Rs in +VR mode or DVD-RWs/DVD-Rs in video mode, including 8 cm discs.</td>
</tr>
<tr>
<td>DATA DVD</td>
<td>Functions available for DATA DVDs (DVD+RWs/DVD+Rs/DVD-RWs/DVD-Rs containing MPEG-2 PS movie files, MP3* audio tracks, and JPEG image files).</td>
</tr>
<tr>
<td>CD</td>
<td>Functions available for music CDs or CD-Rs/CD-RWs in music CD Format.</td>
</tr>
</tbody>
</table>

* MP3 (MPEG-1 Audio Layer III) is a standard format defined by ISO (International Organization for Standardization)/IEC (International Electrotechnical Commission) MPEG which compresses audio data.

Note

The on-screen display illustrations used in this manual may not match the graphics displayed on your TV screen.

This Player Can Play the Following Discs and Files

<table>

</tbody>
</table>

"Blu-ray Disc" is a trademark.
"Blu-ray Disc," “DVD+RW,” “DVD-RW,” “DVD+R,” “DVD-R,” “DVD VIDEO,” and “CD” logos are trademarks.

Supported file formats (DATA DVD only)

DVD+RWs/DVD-RWs/DVD+Rs/DVD-Rs are called “DATA DVD” in this manual when the discs contain playable files. The following file formats are supported:

* MPEG-2 PS movie files.
* MP3 music files.
* JPEG* image files.
* JPEG format conforming to UDF (Universal Disk Format).

Notes about BD-ROM compatibility

This player supports BD-ROM Profile 1 only. Playback of later versions and BDs other than BD-ROM is not guaranteed. Since the Blu-ray Disc specifications are new and evolving, some discs may not play depending on the disc type and the version. The audio output differs depending on the source, connected output jack, and selected audio settings. For details, see page 48.
Examples of discs that the player cannot play

The player cannot play the following discs:
- BD-REs/BD-Rs.
- BDs with cartridge.
- DVD-RWs/DVD-Rs of VR mode.
- DVD-RAMs.
- HD DVDs.
- DVD Audio discs.
- DATA CDs (CD-Rs/CD-RWs other than music CD format).
- CD-ROMs recorded in PHOTO CD format.
- Data part of CD-Extras.
- VCDs/Super VCDs.
- HD layer on Super Audio CDs.

Also, the player cannot play the following discs:
- A BD-ROM/DVD VIDEO with a different region code.
- A disc recorded in a color system other than NTSC, such as PAL (this player conforms to the NTSC color system).
- A disc that has a non-standard shape (e.g., card, heart).
- A disc with paper or stickers on it.
- A disc that has the adhesive of cellophane tape or a sticker still left on it.

Notes

• Notes about DVD+RWs/DVD+Rs, DVD-RWs/DVD-Rs, or CD-Rs/CD-RWs
Some DVD+RWs/DVD+Rs, DVD-RWs/DVD-Rs, or CD-Rs/CD-RWs cannot be played on this player due to the recording quality or physical condition of the disc, or the characteristics of the recording device and authoring software.

The DVD disc will not play if it has not been correctly finalized. For more information, refer to the operating instructions for the recording device. Note that some playback functions may not work with some DVD+RWs/DVD+Rs, even if they have been correctly finalized. In this case, view the disc by normal playback.

• Music discs encoded with copyright protection technologies
This product is designed to playback discs that conform to the Compact Disc (CD) standard. Recently, various music discs encoded with copyright protection technologies are being marketed by some record companies. Please be aware that among those discs, there are some that do not conform to the CD standard and may not be playable by this product.

• Note on DualDisc
A DualDisc is a two sided disc product which mates DVD recorded material on one side with digital audio material on the other side.
However, since the audio material side does not conform to the Compact Disc (CD) standard, playback on this product is not guaranteed.

• Note about double-layer DVDs
The playback pictures and sound may be momentarily interrupted when the layers switch.

About playback of discs recorded in AVCHD format

This player can play AVCHD format discs.

What is the AVCHD format?
The AVCHD format is a high definition digital video camera format used to record SD (standard definition) or HD (high definition) signals of either the 1080i specification*1 or the 720p specification*2 on DVDs, using efficient data compression coding technology. The MPEG-4 AVC/H.264 format is adopted to compress video data, and the Dolby Digital or Linear PCM system is used to compress audio data. The MPEG-4 AVC/H.264 format enables a high definition (HD) video signal shot on a digital video camera recorder to be recorded on DVD discs, in the same way as it would be for a standard definition (SD) television signal.

“AVCHD” and the AVCHD logo are trademarks of Matsushita Electric Industrial Co., Ltd. and Sony Corporation.

Notes

• Some AVCHD format discs may not play, depending on the recording condition.
• The AVCHD format disc will not play if it has not been correctly finalized.
**BD/DVD region code**

Your player has a region code printed on the back of the unit and only will play BD-ROM/DVD VIDEOs (playback only) labeled with identical region codes. This system is used to protect copyrights.

DVD VIDEOs labeled **ALL** will also play on this player.

Depending on the BD-ROM/DVD VIDEO, there may be no region code indication, even though playing the BD-ROM/DVD VIDEO is prohibited by area restrictions.

---

**Main Features**

Experience the high definition (HD) quality audio/video output and the library function of this Blu-ray Disc Player.

**BD-ROM playback**

BD-ROM is a next generation optical disc format in the HD era. Featuring massive storage capacity of 25 to 50 GB (five times larger than a DVD) and a high-speed transfer rate of up to 54 Mbps, the format offers not only uncompromised HD quality video, but also enables rich bonus content on a single disc and HD quality audio up to 8ch, and interactive operability.

*A compatible HD display device is necessary to enjoy the same quality.*

*A Some discs allow viewing only with an HDMI connection.*

**24p True Cinema**

Movies shot with a film camera consist of 24 frames per second. Since conventional televisions (both CRT and flat panels) display frames either at 1/60 or 1/50 second intervals, the 24 frames do not appear at an even pace.

When connected to a TV with 24p capabilities, the player displays each frame at 1/24 second intervals — the same interval originally shot with the film camera, thus faithfully reproducing the original cinema image.

**HDMI Control (‘BRAVIA’ Theatre Sync)**

‘BRAVIA’ Theatre Sync Function makes operations simple by connecting Sony components that are compatible with the HDMI Control function with an HDMI cord.

**BD-J application**

The BD-ROM format supports Java for interactive functions. “BD-J” offers content providers almost unlimited functionality when creating interactive BD-ROM titles.

Java and all Java-based trademarks and logos are trademarks or registered trademarks of Sun Microsystems, Inc. in the U.S. and other countries.

Esmertec and Jbed are trademarks or registered trademarks of Esmertec AG.

© 2000-2007 Esmertec AG

* This player does not support downloadable BD-J content.

**Support of uncompressed multi-channel Linear PCM**

In combination with a compatible AV amplifier, the player can output up to 8ch Linear PCM surround sound. With a non-compatible amplifier, the player can output 5.1ch analog signals from its 5.1CH OUTPUT jack for high quality audio enjoyment.

* Note that the DIGITAL OUT (COAXIAL or OPTICAL) jack does not output 8ch signals. You will need an HDMI cord and an HDMI-compatible device that support 8ch signals.

**AVCHD format disc playback**

The player supports AVCHD format files—high definition recordings made on AVCHD-compatible camcorders. Your high definition personal archive is readily playable in HD quality.
HDMI (High-Definition Multimedia Interface) digital interface

When connected to an HDMI-equipped display device using a single HDMI cord, the player can output both SD to HD video and multi-channel audio signals, in digital form without degradation.

The HDMI specification supports HDCP (High-bandwidth Digital Content Protection), a copy protection technology that incorporates coding technology for digital video signals.

Library function for recorded files (For JPEG image, MP3 audio, MPEG-2 PS movie files only)

With DATA DVDs created on other DVD devices, three separate movie/music/photo Title List-browsers allow for easy sorting, searching and playback including a slideshow.
Getting Started

Follow steps 1 to 7 to hook up and adjust the settings of the player.
For jack and button names, see “Index to Parts and Controls” (page 58).

Notes
- Plug cords securely to prevent unwanted noise.
- Refer to the instructions supplied with the components to be connected.
- You cannot connect this player to a TV that does not have a video input jack.
- Be sure to disconnect the power cord of each component before connecting.
- Do not apply too much pressure on the connecting cords. Pushing against the cabinet wall, etc., may damage the cord.

Step 1: Unpacking

Check that you have the following items:
- Video cord (phono plug × 1) (1)
- Stereo audio cord (phono plug × 2) (1)
- HDMI cord (1)
  (supplied with BDP-S301 only)
- Power cord (1)
- Remote commander (remote) (1)
- Size AA (R6) batteries (2)
Step 2: Connecting the Video Cords/HDMI Cord

Connect this player to your TV monitor, projector or AV amplifier (receiver) using a video cord. Select one of the patterns A through D, according to the input jack on your TV monitor, projector or AV amplifier (receiver).

In order to view 1080p progressive signals with a compatible TV, projector, or monitor with an HDMI input jack, you must select pattern D. You can use pattern C to view 480p/720p progressive signals or 1080i interlace signals on a compatible device with component video input jacks.

A Connecting to a video input jack

Connect the supplied video cord (yellow) to the yellow (video) jack. You will enjoy standard quality images.

When connecting to a standard 4:3 screen TV

Depending on the disc, the image may not fit your TV screen. To change the aspect ratio, see page 45.

Note

Do not connect a VCR, etc., between your TV and the player. If you pass the player signals via the VCR, you may not receive a clear image on the TV screen. If your TV has only one audio/video input jack, connect the player to this jack.

B Connecting to an S VIDEO input jack

Connect using an S VIDEO cord (not supplied). You will enjoy high quality images.

C Connecting to component video input jacks (Y, Pb, Pr)

Connect the component via the COMPONENT VIDEO OUT jacks using a component video cord (not supplied) or three video cords (not supplied) of the same kind and length. You will enjoy accurate color reproduction and high quality images. You can also enjoy higher quality pictures from 480p/720p progressive signals or 1080i interlace signals, if your TV, projector or AV amplifier (receiver) is compatible.
Connecting to an HDMI input jack

Use an HDMI cord to enjoy high quality digital pictures and sound through the HDMI OUT jack. You will enjoy higher quality pictures from 480p/1080i, or 1080p (highest among the player output), if your TV, projector or AV amplifier (receiver) is compatible.

This Blu-ray Disc player incorporates High-Definition Multimedia Interface (HDMI™) technology. HDMI, the HDMI logo and High-Definition Multimedia Interface are trademarks or registered trademarks of HDMI Licensing LLC.

Notes on connecting to the HDMI OUT jack

Observe the following as improper handling may damage the HDMI OUT jack and the connector.

- Carefully align the HDMI OUT jack on the back of the player and the HDMI connector by checking their shapes. Make sure the connector is not upside down or tilted.

- Be sure to disconnect the HDMI cord when moving the player.

- If you place the player on the cabinet with the HDMI cord connected, do not apply too much pressure to the cabinet wall. It may damage the HDMI OUT jack or the HDMI cord.

- When connecting or disconnecting, do not screw in or rotate the HDMI connector.

About indicators for HDMI connection

After the player is turned on, the HD indicator on the front panel lights up when outputting 720p/1080i/1080p video signals. The HDMI indicator lights up when an HDMI device is connected.

Notes

- Consumers should note that not all high definition television sets are fully compatible with this product and may cause artifacts to be displayed in the picture. In the case of 480i/720p/1080i progressive scan picture problems, it is recommended that the user switch the connection to the ‘standard definition’ output. If there are questions regarding our TV set compatibility with this model 480p/720p/1080p Blu-ray Disc player, please contact our customer service center.

- If the picture is not clear, natural, or to your satisfaction, change the video output resolution by pressing VIDEO FORMAT (page 46).

- Be sure to use only an HDMI cord that bears the HDMI logo.

About the ‘BRAVIA’ Theatre Sync features (for HDMI connections only)

By connecting Sony components that are compatible with the HDMI Control function with an HDMI cord, operation is simplified as below:

- One-Touch Play (page 21)
  You can turn on the player and TV/AV receiver, set the TV/AV receiver’s input to the player, and start playback with one touch of the " button.

- System Power-Off
  When you turn the TV off by using the POWER button on the TV’s remote, the HDMI compatible components turn off automatically.

To prepare for the ‘BRAVIA’ Theatre Sync features

Set “HDMI Control” of “Options” setup to “On” (page 52).

Note

Depending on the connected component, the HDMI Control function may not work. Refer to the operating instructions supplied with the component.
### Step 3: Connecting the Audio Cords

Select the connection that best suits your system. Be sure to read the instructions for the components you wish to connect.

#### Notes about the HDMI OUT jack
- When you connect the player to an AV amplifier (receiver) using an HDMI cord, you will need to do one of the following:
  - Connect the AV amplifier (receiver) to a TV with the HDMI cord.
  - Connect the player to the TV with a video cord other than an HDMI cord (component video cord, S VIDEO cord, or video cord).
- When connecting to the HDMI OUT jack, carefully align the HDMI connector with the jack. Do not bend or apply pressure to the HDMI cord.
- If you change the component connected to the HDMI OUT jack, change “Audio (HDMI)” in “Audio Setup” to match the new component (page 47). The player stores the HDMI related settings for up to five components.
- The HDMI connection is compatible with 2ch Linear PCM signals (48 to 192 kHz, 16/20/24 bit), and 6 to 8ch Linear PCM signals (48 to 96 kHz, 16/20/24 bit), in addition to Dolby Digital and DTS bit stream (5.1ch signals up to 96 kHz, 16/20/24bit).

**Note**
If you connect a component that does not conform to the selected audio signal, a loud noise (or no sound) will come out from the speakers, which could damage your ears or speakers.

---

* Manufactured under license from Dolby laboratories.

A Connecting to your TV
This connection will use your TV’s speakers for sound.

B Connecting to a stereo amplifier (receiver) and 2 speakers
If your stereo amplifier (receiver) only has audio input jacks L and R, use B-1. If your amplifier (receiver) has a digital input jack, use B-2.

---

A

B

---

continued
Connecting to an AV amplifier (receiver) having a Dolby Surround (Pro Logic) decoder and 3 to 6 speakers

If your AV amplifier (receiver) only has L and R audio input jacks, use C-1. If your amplifier (receiver) has a digital input jack, use C-2.

You can enjoy surround effects only when playing Dolby Surround audio or multi-channel audio (Dolby Digital or DTS) discs.

---

Connecting to an AV amplifier (receiver) with 5.1ch input jacks and 6 speakers

If your AV amplifier (receiver) has 5.1 channel inputs, use D-1.

---

**Hint**
For correct speaker location, see the operating instructions of the connected components.

**Note**
When connecting 6 speakers, you do not need the “Rear (mono)” speaker above.
**D-2 Connecting to an AV amplifier (receiver) with a digital input jack and 6 speakers**

If you want to use the Dolby Digital, or DTS decoder function on your AV amplifier (receiver), connect to its digital jack using D-2. You can enjoy a more realistic audio presence.

**D-3 Connecting to an AV amplifier (receiver) with an HDMI input jack and 8 speakers**

If your AV amplifier (receiver) accepts 8ch Linear PCM input with an HDMI connection, you can enjoy the surround sound using D-3.

---

**Hint**

For correct speaker location, see the operating instructions of the connected components.

---

**Note**

Not all HDMI-compatible AV amplifiers (receivers) accept 8ch Linear PCM signals. See also the operating instructions supplied with the connected AV amplifier (receiver).
Step 4: Connecting the Power Cord

After all of the other connections are complete, connect the supplied power cord to the AC IN terminal of the player. Then plug the player and TV power cords into the AC outlet.

Step 5: Preparing the Remote

You can control the player using the supplied remote. Insert two Size AA (R6) batteries by matching the and ends on the batteries to the markings inside the battery compartment. When using the remote, point it at the remote sensor on the player (page 58).

Notes
- Do not leave the remote in an extremely hot or humid place.
- Do not drop any foreign object into the remote casing, particularly when replacing the batteries.
- Do not expose the remote sensor to direct sunlight or a lighting apparatus. Doing so may cause a malfunction.
- If you do not use the remote for an extended period of time, remove the batteries to avoid possible damage from battery leakage and corrosion.
If you want to control your TV with the supplied remote

You can control the volume, input source, and power switch of your Sony TV with the supplied remote.

To control other TVs with the remote

You can control the volume, input source, and power switch of non-Sony TVs as well. If your TV is listed in the table below, set the appropriate manufacturer’s code.

1. While holding down TV \( \square \), press the number buttons to select your TV manufacturer’s code (see the table below).

2. Release TV \( \square \).

◆ Code numbers of controllable TVs

If more than one code number is listed, try entering them one at a time until you find the one that works with your TV.

<table>

By pressing You can

TV \( \square \) Turn the TV on or off.

VOL +/- Adjust the volume of the TV.

TV/VIDEO Switch the TV’s input source between the TV and other input sources.

CH +/- Select the channel up and down.

MUTING Mute the sound (for Sony TV only).

◆ To return the remote to its default settings

1. Remove the batteries from the remote.

2. Re-insert the batteries while pressing down 1, 2, and 3 of the number buttons.

3. Wait for a few seconds.

Note

Depending on the connected unit, you may not be able to control your TV using all or some of the buttons on the supplied remote.
Step 6: Easy Setup

Follow the steps below to make the minimum number of basic adjustments for using the player. If you do not complete Easy Setup, it will appear each time you turn on your player. Make the settings below in the following order.

When turned on for the first time

Wait about 90 seconds before the player turns on and starts Easy Setup. The start-up time will be much shorter once Easy Setup is completed.

1 Turn on the TV.

2 Press I/○ to turn on the player.
   The player turns on after a moment.

3 Switch the input selector on your TV so that the signal from the player appears on your TV screen.
   If the display for OSD language selection does not appear, select “Start” of “Easy Setup” in “Options” Setup (page 52).

4 Select the OSD language you want to display, and press ENTER.
   This will determine the Audio, Subtitle and BD/DVD menu languages as well.

5 Select “Start,” and press ENTER to start “Easy Setup.”

   If the above display does not appear
   Go to step 6. This display appears only when the player is turned on for the first time.

6 Select the video output format for the connected TV, and press ENTER.
   For details about the video output, see page 46.
   ◆ When using the HDMI OUT jack
   Select from “Auto,” “480i,” “480p,” “720p,” “1080i,” “1080p,” or “Source Direct,” then go to step 8. “TV Type” in step 7 will be set to “16:9” (wide screen).
   ◆ When using the jacks other than the HDMI OUT jack
   Select from “S-Video/Video only,” “480i,” “480p,” “720p,” “1080i” or “Don’t Know.” If you select “720p” or “1080i,” go to step 8. “TV Type” in step 7 will be set to “16:9” (wide screen).
7 Select the aspect ratio that matches your TV, and press ENTER.

◆ If you have a wide screen TV or a 4:3 standard TV with a wide screen mode
  Select “16:9” (page 45).

◆ If you have a 4:3 standard TV
  Select “4:3” (page 45).

8 Select “Finish Setup,” and press ENTER.

Hints
• If you want to reset these settings to their factory defaults, see “Resetting the Player” (page 53).
• You can re-run “Easy Setup” from “Options” Setup (page 52).

Step 7: Additional Adjustments

The following settings and adjustments are necessary when your connection applies.

For video connection
◆ When using the COMPONENT VIDEO OUT jacks
  (Pattern C – page 10)
  • Select the video output resolution for your TV by pressing VIDEO FORMAT (page 46).
◆ When using the HDMI OUT jack
  (Pattern D – page 11)
  • Select the video output resolution for your TV by pressing VIDEO FORMAT (page 46).
  • Select the type of video output from the HDMI OUT jack in “YCbCr/RGBPC (HDMI)” of “Video Setup” (page 45).

For audio connection
◆ When using the DIGITAL OUT (OPTICAL or COAXIAL) jack
  (Connection E1, E2, E3 – page 13 to 15)
  • Set “Dolby Digital” and “DTS” in “Audio Setup” (page 47) according to your AV amplifier’s (receiver’s) decoder.
◆ When using the HDMI OUT jack
  (HDMI connection of E4, E5 – page 15)
  • Set “Dolby Digital” and “DTS” in “Audio Setup” (page 47) according to your AV amplifier’s (receiver’s) decoder.
  • Select the audio output method from the HDMI OUT jack in “Audio (HDMI)” of “Audio Setup” (page 47).
◆ When using the AUDIO OUT (L/R) jacks
  (Connection F1 – page 14)
  • Set “DTS Downmix” to “Lt/Rt” in “Audio Setup” (page 47).
◆ When using the 5.1CH OUTPUT jacks
  (Connection G1 – page 14)
  • Set “Audio Output Mode” to “5.1 Channel” in “Speakers” Setup (page 51), and adjust the “Speaker Setup” setting for your system.

Notes
• If you connect a component that does not conform to the selected audio signal, a loud noise (or no sound) will come out from the speakers, which could damage your ears or speakers.
• If you connect using the HDMI OUT jack or COMPONENT VIDEO OUT jacks and the picture does not appear clearly, the connected display device may not be compatible with the progressive signals. In this case, connect the display device to the S VIDEO jack or the VIDEO jack (pattern A or B – see page 10), re-run the “Easy Setup” from the “Options” Setup (page 52), and select “S-Video/Video only” in step 6 (page 18). Also, check the above items again to see if any additional adjustment is required.
Basic Operations

Most of the BD playback operations are common to DVD. This section covers BD/DVD/CD playback in general, together with the basic operation of the player. For browsing recorded files on DATA DVDs*, a separate library function is available. See also page 32 for movie, 36 for music, 40 for photo files. For operations using the remote, a complete list is located on page 24.

* DVD+RWs/DVD+Rs/DVD-RWs/DVD-Rs containing MPEG-2 PS movie, MP3 audio, or JPEG image files.

Playing a Disc

1. Press I/○. The player turns on after a moment.

2. Switch the input selector on your TV so that the signal from the player appears on your TV screen.

3. Press ▲ to open the disc tray.

4. Place a disc on the disc tray with the playback side facing down.

- Playing a Disc .......................... 20
- Guide to Displays ..................... 22
- Guide to the Remote .................. 24
- Checking the Disc Information ...... 26
- Clarifying Low Volume Sounds (Audio DRC) . 27
- Adjusting the Pictures .............. 28
- Locking a Disc ........................ 29
5 Press ▲ to close the disc tray.
   Wait a short while until the disc type appears on the front panel display.

6 Press ▶ to start playback.
   For more information about the remote’s operations, see page 24.

<table>
<thead>
<tr>
<th>Buttons</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>▲</td>
<td>Pauses playback, or restarts playback from the same point.</td>
</tr>
<tr>
<td>■</td>
<td>Stops playback, or cancels the resume point when pressed twice.</td>
</tr>
<tr>
<td>▶</td>
<td>Starts or restarts playback from the previous stop point.</td>
</tr>
</tbody>
</table>

7 When you finish playing, press ▲ to open the disc tray.

8 Remove the disc, and press ▲ again to close the disc tray.

9 Press I/○ to turn off the player.

To use the BD’s or DVD’s menu
When you play a BD-ROM, DVD VIDEO, or a finalized
DVD+RW, DVD-RW (Video mode), DVD+R, or DVD-R (Video mode), you can display the disc’s menu by pressing TOP MENU or POP UP/MENU. Some BDs/DVDs display the menu automatically. Either cases, navigate through the menu using "", ENTER, or the number buttons and the color buttons as indicated by the disc’s on-screen instructions. The BD menu is operable without interrupting playback.

To play restricted BDs
If “CAN’T PLAY” appears on the front panel display for a BD-ROM, change the “BD Parental Control” setting (page 30).

To play restricted DVDs
For a restricted DVD, the display asks for the password. For “DVD Parental Control” setting, see page 30.

1 Enter your four-digit password using the number buttons.

2 Press ENTER to confirm.
   To register or change the password, see page 29.

Notes about Resume Play
- Playback starts from the beginning if the title has not been played or the previous stop point is canceled.
- The stop point is canceled when:
  - you change the settings on the player.
  - you turn off the player (BD-ROM and CD only).
  - you press ■ twice.
  - you open the disc tray.
  - you finish a search.
- The player remembers the stop point for one title/track/file only. On a music CD, playback resumes from the beginning of the track.

About the screen saver function
To prevent damage to your display device (ghosting), a screen saver image appears when the player is left unattended, has no disc inserted, or no title/slideshow is displayed for 15 minutes. To cancel, press any button on the remote or the player.

About One-Touch Play (for HDMI connections only)
With one touch of the ▶ button, the player and your TV/AV receiver automatically turn on and the TV/AV receiver’s input is switched to the player. Playback starts automatically. To use this function, set “HDMI Control” of “Options” setup to “On” (page 52). The TV/AV receiver’s input will also switch to the player automatically, in the following cases:
- You press ▶, SYSTEM MENU, TOP MENU, or POP UP/MENU buttons on the remote.
- A disc with auto playback function is loaded.
When ‘Select an item, and press ENTER’ appears in this manual, press the `←/↑/→/↓` keys on the remote to select the item then the entry button in the middle. You can operate the player likewise using displays.

1 Press SYSTEM MENU to turn on the above “System Menu.”
   The player’s start menu appears, with entries to all of the functions.

2 Select an item, and press ENTER.
   Each item leads to the following function displays. See the pages in parentheses for operations. When you want to return to the previous display, press RETURN.

---

**Title List**

For DATA DVDs, this display leads further to the Title Lists of content type. The three Title Lists appear similar and are operable in a similar way.

Select the Title List you want to view; from “Movies,” “Photos,” or “Music,” and press ENTER.

- **Movies**
  Displays movies/video titles only (page 32).

- **Photos**
  Displays image files only (page 40).

- **Music**
  Displays music files only (page 36).

**A/V Control (page 27)**

Adjusts the audio/video settings. Select either “Video Control,” or “Audio Control,” and press ENTER.

**Setup (page 44)**

Enters the Setup displays for changing the player’s settings. Select the related Setup display, and press ENTER.
Entering characters

When an on-screen keyboard appears (e.g., when searching for a title), enter the characters as follows.

1. Select the character you want to enter, and press ENTER.
   The character appears in the entry field. If necessary, select the following items, and press ENTER.

<table>
<thead>
<tr>
<th>Items</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>SHFT</td>
<td>Switches between upper and lower case characters. Select this before entering the character.</td>
</tr>
<tr>
<td>SPC</td>
<td>Inserts a space.</td>
</tr>
<tr>
<td>DEL</td>
<td>Deletes the last character input.</td>
</tr>
<tr>
<td>CLR</td>
<td>Clears all input characters.</td>
</tr>
</tbody>
</table>

2. Repeat step 1 to complete the entry.

3. Select “DONE,” and press ENTER to close the on-screen keyboard.

Note
You cannot use the extended character set.
The following covers all of the remote’s functions. Refer to the list when necessary.

1. **OPEN/CLOSE (page 20)**
   - Opens/closes the disc tray.

2. **TV I/○ (page 17)**
   - Turns the TV on or to standby mode.

3. **I/○ (page 18)**
   - Turns on, or sets the player to standby mode.

4. **DIMMER (page 59)**
   - Changes the brightness of the front panel display on the player (when completely darkened, indicators on the front panel are also turned off and the FL OFF indicator lights up).

5. **DISPLAY (page 26)**
   - Displays the disc information on the screen.

6. **TV/VIDEO (page 17)**
   - Switches between TV and other input sources.

7. **Number buttons (page 26)**
   - Enters the title/chapter numbers, etc.

8. **CLEAR**
   - Clears the entry field.

9. **VIDEO FORMAT (page 45)**
   - Changes the video output resolution from the HDMI OUT jack and the COMPONENT VIDEO OUT jacks. Press this button repeatedly if no picture appears.

10. **AUDIO*1 (page 49)**
    - Selects the sound track or the language track on a BD/DVD.

   *1 When playing MPEG-2 movie files or MP3 music files on a DATA DVD, or a music CD, you cannot select the left or right channel only.

11. **SUBTITLE (page 49)**
    - Selects the subtitle language on a BD/DVD.

12. **ANGLE**
    - Switches to other viewing angles when available.

13. **Color buttons (RED/GREEN/BLUE/YELLOW)**
    - Short cut keys for selecting items on some BD’s menus (can also be used for BD’s Java interactive operations).

Number 5, AUDIO, CH+, and I/○ buttons have a tactile dot. Use the tactile dot as a reference when operating the player.
During playback, press PLAY MODE repeatedly.
Available items differ depending on the current title/track/file or the disc type. To cancel the Play Mode, press PLAY MODE again. For “Time Search,” see “Searching using the remote” (page 26).

</tbody>
</table>
Searching using the remote

You can search by entering the title/chapter number or the time code (elapsed time from the beginning of the disc).

To search for a title or chapter (BD-ROM, DVD VIDEO only)

1 Enter the title number using the number buttons while the player is in stop mode.
   To search for a chapter, enter the chapter number during playback. If you make a mistake, press CLEAR once and re-enter.
2 Press ENTER to start playback.

To search for a specific point

1 During playback, press PLAY MODE repeatedly until “Time Search” appears.
2 Enter the time code using the number buttons.
   Enter the time in minutes and seconds (e.g., ‘12030’ for 1 hour, 20 minutes and 30 seconds). If you make a mistake, press CLEAR once and re-enter.
3 Press ENTER to start playback.

Note

Depending on the DVD VIDEO/BD-ROM/DATA DVD, these search functions may not work.

Checking the Disc Information

You can check the title/chapter/track information including video transmission rate etc., by pressing DISPLAY. The information differs depending on the disc type and the player status.

1 Press DISPLAY.

Example: When playing a DVD VIDEO.

The following information appears:

1 Playback status
2 Disc type
3 Title information
   • Currently playing title number/currently playing chapter number.
   • Total number of chapters within the title.
   • Total playback time of the title.
4 Elapsed time of the current title
5 Play mode

2 Press DISPLAY again.

The display switches to show the following information:

1 Chapter information
   • Elapsed time of the current chapter.
   • Total playback time of the current chapter.
2 Video transmission rate and the stream information
**Hints**
- You can check disc information also on the front panel display (page 59) or the Title List display (page 22).
- You can check the audio information by pressing AUDIO.

---

**Clarifying Low Volume Sounds (Audio DRC)**

Even at low volume, you can make low sounds such as dialogs more audible.

1. **Press SYSTEM MENU during playback.**
2. **Select “A/V Control,” and press ENTER.**
3. **Select “Audio Control,” and press ENTER to turn on the above display.**
4. **While “Audio DRC” is highlighted, select from “Max” to “Off” by pressing ←/➡.**
5. **Press ENTER.**

**Note**

“Audio DRC” is effective only when the disc is a Dolby Digital Blu-ray Disc or DVD, and:
- “Dolby Digital” in “Audio Setup” is set to “Downmix PCM” (page 47) and the audio signals are output from the DIGITAL OUT (OPTICAL or COAXIAL) jack or the HDMI OUT jack.
- “Audio (HDMI)” in “Audio Setup” is set to “PCM” (page 47) and the audio signals are output from the HDMI OUT jack.
- the audio signals are output from the AUDIO OUT (L/R) jacks or the 5.1CH OUTPUT jacks.
**Adjusting the Pictures**

The “cinema tuned” picture preset setting will allow you to maximize the visual impact of the BD or DVD you are watching by optimizing the picture settings for different lighting environments. “Memory” allows you to make your own detailed adjustments.

1. Press SYSTEM MENU during playback.
2. Select “A/V Control,” and press ENTER.
3. Select “Video Control,” and press ENTER to turn on the above display.
4. Press ←/→ to select a setting.

<table>
<thead>
<tr>
<th>Items</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>Brighter Room</td>
<td>For a room brighter than normal.</td>
</tr>
<tr>
<td>Theater Room</td>
<td>For a dark room such as a home theater.</td>
</tr>
<tr>
<td>Standard (default)</td>
<td>Normally, select this.</td>
</tr>
<tr>
<td>Memory (1-3)</td>
<td>Select a setting when you want to use the detailed picture adjustments you previously made, or when you want to make a new set. The player remembers up to three sets (see page 28).</td>
</tr>
</tbody>
</table>

5. Press ENTER.

**Hint**
The above description applies when the picture setting of your TV (if any) is set to “Standard.”

**Note**
“Memory” settings do not affect the output from the S VIDEO OUT or VIDEO OUT jacks.

---

**Fine-tuning the picture to your preference**

1. Select from “Memory 1” to “Memory 3” in step 4 of “Adjusting the Pictures” (page 28).
2. Select “Detailed Settings,” and press ENTER to turn on the above display.
3. To switch to another “Memory,” press RETURN.
4. Select each of the picture elements, and adjust using ←/→.

- To adjust while previewing the effect
  Select a setting and press ENTER to switch the display for the setting. Press ←/→ to adjust while checking the effect on the background playback picture. Then press ENTER to save the adjustment.

Underlined are the default settings for “Memory.”

<table>
<thead>
<tr>
<th>Items</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>White Adjust (Min→(mid)→Max)</td>
<td>Adjusts the brightness of white colors.</td>
</tr>
<tr>
<td>Black Adjust (Min→(mid)→Max)</td>
<td>Adjusts the richness of dark colors.</td>
</tr>
<tr>
<td>Hue (Green→(mid)→Red)</td>
<td>Balances the green and the red colors.</td>
</tr>
<tr>
<td>Color Level (Min→(mid)→Max)</td>
<td>Adjusts the color saturation.</td>
</tr>
</tbody>
</table>

4. Press RETURN.
Locking a Disc

By setting the password and your limit in “Parental Control” Setup, you can control playback of inappropriate discs.

Notes

- You cannot limit playback if the DVD VIDEO/BD-ROM does not have the “Parental Control” function.
- If you forget the password, you will have to return all of the player settings to their factory defaults (page 53).
- The above display does not appear for BD-ROM. If you cannot play a BD-ROM because of Parental Control, reset “Change Age Restriction” of “BD Parental Control” (page 50).

Setting/changing the password

1. Press SYSTEM MENU.
2. Select “Setup,” and press ENTER.
3. Select “Parental Control,” and press ENTER to turn on the above “Parental Control” Setup.
4. Select “Change Password (Set Password),” and press ENTER.
5. Select “Next Screen,” and press ENTER to turn on the password display.

- **When you have not yet registered a password**
  Enter a four-digit password using the number buttons, and press ↓. Re-enter it for confirmation, and press ENTER.

- **When you have already registered a password**
  Enter the four-digit password using the number buttons, and press ENTER. Enter a new password and press ↓, then re-enter it for confirmation, and press ENTER.

Hint

To continue to set “BD Parental Control,” go to step 4 of “Setting the Parental Control for DVD VIDEOS” (page 30).
Setting the Parental Control for DVD VIDEOS

1. Press SYSTEM MENU.
2. Select “Setup,” and press ENTER.
3. Select “Parental Control,” and press ENTER to turn on the “Parental Control” Setup.
4. Select “DVD Parental Control,” and press ENTER.
5. Select “Change Level,” and press ENTER to turn on the above display.
   This will set the playback limitation level.
6. Enter the password using the number buttons, and press ENTER.
7. Press ←/→ to select the limitation level from “Off” to “Level 8,” and press ENTER.
   Note that the lower the value, the stricter the limitation.
8. When the display returns to the “Parental Control” Setup, select “DVD Parental Control,” and press ENTER.
   This ensures that you see the scenes intended for your residential area.
10. On the “DVD Country Code” display, enter the password using the number buttons, and press ENTER.
11. Press ←/→ to select your country code (see page 69), or press ↓ and enter the code for your area using the number buttons.
12. Press ENTER.

Hint
To continue to set “BD Parental Control,” go to step 4 of “Setting the Parental Control for BD-ROMs” (page 30).

Setting the Parental Control for BD-ROMs

1. Press SYSTEM MENU.
2. Select “Setup,” and press ENTER.
3. Select “Parental Control,” and press ENTER to turn on the “Parental Control” Setup.
4. Select “BD Parental Control,” and press ENTER.
5. Select “Change Age Restriction,” and press ENTER to turn on the above display.
   For BD-ROMs, the restriction is set by age, not by level.
6. Enter the password using the number buttons, and press ENTER.
7. Press ←/→ to select the age from “0” to “255,” and press ENTER.
8. When the display returns to the “Parental Control” Setup, select “BD Parental Control,” and press ENTER.
   This ensures that you see the scenes intended for your residential area.
10. On the “BD Country Code” display, enter the password using the number buttons, and press ENTER.
11. Press ←/→ to select your country code (see page 69), or press ↓ and enter the code for your area using the number buttons.
12. Press ENTER.
Watching Movie Files

Use the “Movies” Title List to browse through and sort MPEG-2 PS movie files on DATA DVDs.

Viewing All Titles

The “Movies” Title List first displays all titles on the disc.

1 Press SYSTEM MENU.
2 Select “Title List,” and press ENTER.
3 Select “Movies,” and press ENTER.

The above “All Movies” display appears, showing all titles (scrollable by pressing ↓). From “All Movies” you can apply items to all titles using the Browse menu (see below).

To use the Browse menu

Press ← after step 3 to display the items for the “Movies” Title List. For operations, see the pages in parentheses. Available items differ depending on the display.

<table>
<thead>
<tr>
<th>Items</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>All Movies</td>
<td>Lists all titles (as above).</td>
</tr>
<tr>
<td>Browse</td>
<td>Displays a list of genres, Quicklist, or folders (page 34).</td>
</tr>
<tr>
<td>Search</td>
<td>Searches for a title using the on-screen keyboard (page 34).</td>
</tr>
<tr>
<td>Sort</td>
<td>Reorders the titles by date or alphabet (see below).</td>
</tr>
</tbody>
</table>

◆ Example: To apply “Sort” to all titles

1 Select “Sort,” and press ENTER.
2 Select the setting you want to sort by; “Recent first,” “Oldest first,” “By title (A→Z),” “By title (Z→A),” and press ENTER.
Playing a title

1 After step 3 of “Viewing All Titles” above, select the title you want to play, and press ENTER or ». The title starts playing. You can apply other playback settings to the selected title using the “Options” menu (see below).

To use the “Options” menu
Press ◄ instead of ENTER in the above step to display the “Options” menu settings applicable to the title in the given situation. In the above example, the following items are available.

<table>
<thead>
<tr>
<th>Items</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>Play from Beginning</td>
<td>Starts playing the title you selected from the beginning.</td>
</tr>
<tr>
<td>Add to Quicklist</td>
<td>Adds the selected title to the Quicklist.</td>
</tr>
</tbody>
</table>

◆ Example: To apply “Play from Beginning” to the selected title
1 Select “Play from Beginning,” and press ENTER.

To play in other play mode
During playback, press PLAY MODE repeatedly. The selected item changes with each press: “Time Search” (page 26) — “Repeat Title” — “Repeat Off” See page 25 for details.

Hint
See page 24 for the remote’s operations.

About the “Movies” (All Movies) Title List display

1 Detailed information
Displays details about the selected title.
- Date: Displays the recording year.
- Genre: Displays the genre name.
- Format: Displays the coding format.

2 List area
Displays the title names of all content.
Browsing by Genre, Quicklist, or Folder

Narrow down the list of titles by selecting the category type (e.g., “Folders”), then the category.

1. Press SYSTEM MENU.
2. Select “Title List,” and press ENTER.
3. Select “Movies,” and press ENTER.
4. Press ← to turn on the Browse menu.
5. Select “Browse,” and press ENTER.
6. Select the list you want to view from “Genres,” “Quicklist,” or “Folders,” and press ENTER.
   The list of genres/Quicklist/folders appears as above. For details about the Quicklist, see “Programming Playback (Quicklist)” (page 35).
7. Select the genre/Quicklist/folder you want to view, and press ENTER.

Searching for a Title

You can find the exact title, or titles with a similar name.

1. Press SYSTEM MENU.
2. Select “Title List,” and press ENTER.
3. Select “Movies,” and press ENTER.
4. Press ← to turn on the Browse menu.
5. Select “Search,” and press ENTER to turn on the above display.
6. Enter the title name using the on-screen keyboard (see page 23).

Hint
You can select a title and start playback by pressing ↓ or ENTER, or using the “Options” menu (press ▶).
Programming Playback (Quicklist)

Play your favorite titles in the order you like by making your own “Quicklist.”

1. Press SYSTEM MENU.
2. Select “Title List,” and press ENTER.
3. Select “Movies,” and press ENTER.
4. When the “All Movies” Title List appears, select the title you want to add to the top of the “Quicklist,” and press \(\Rightarrow\).
5. Select “Add to Quicklist” from the “Options” menu, and press ENTER.
6. Repeat step 4 and 5 to select all the desired titles.
   Select in the order you want to play. You can add the same title multiple times. The “Quicklist” can contain up to 25 titles.
7. Press \(\Leftarrow\) to turn on the Browse menu.
8. Select “Browse,” and press ENTER.
9. Select “Quicklist,” and press ENTER to turn on the above display.
   The “Quicklist” Title List appears with the programmed content.
10. Select the title you want to start playback, and press ENTER.

To remove the title from the “Quicklist”
1. Select the title you want to remove from the displayed “Quicklist,” and press \(\Rightarrow\).
2. Select “Remove,” and press ENTER.

Hint
You can play the “Quicklist” content in other play modes by pressing PLAY MODE (page 25).

Note
The “Quicklist” may be cleared after some operations (e.g., opening the disc tray, or turning off the player etc.).
Listening to Music Files

Use the “Music” Title List to browse through and play the MP3 track files on DATA DVDs. You can make a “Quicklist” of your favorites and play in various play modes.

Viewing All Artists

The “Music” Title List first displays a list of the artist names on the disc.

1. Press SYSTEM MENU.
2. Select “Title List,” and press ENTER.
3. Select “Music,” and press ENTER.

The above “Artists” display appears, showing all artist names (scrollable by pressing ↓). From “Artists” you can apply items to all tracks using the Browse menu (see below).

To use the Browse menu

Press ← after step 3 to display the items for the “Music” Title List. For operations, see the pages in parentheses. Available items differ depending on the display.

<table>
<thead>
<tr>
<th>Items</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>All Songs</td>
<td>Lists all tracks (page 37).</td>
</tr>
<tr>
<td>Browse</td>
<td>Displays a list of artists, albums, genres, Quicklist, or folders (page 38).</td>
</tr>
<tr>
<td>Search</td>
<td>Searches for a track using the on-screen keyboard (page 38).</td>
</tr>
<tr>
<td>Sort</td>
<td>Reorders the tracks by the on-screen keyboard etc. (see below).</td>
</tr>
<tr>
<td>Now Playing</td>
<td>Displays the track information and the playback information during playback.</td>
</tr>
</tbody>
</table>

◆ Example: To apply “Sort” to all tracks
1. To display the list of tracks, select “All Songs” from the Browse menu and press ENTER.
2. Press ← to turn on the Browse menu.
3. Select “Sort,” and press ENTER.
4. Select the setting you want to sort by; “Recent first,” “Oldest first,” “By title (A→Z),” “By title (Z→A),” “By artist (A→Z),” “By artist (Z→A),” and press ENTER.
Playing a track

1 After step 3 of “Viewing All Artists” above, narrow down the list of tracks by selecting the artist, then the album.
To list all tracks, press and select “All Songs” from the Browse menu.

2 Select the track you want to play, and press ENTER or >>.
The title starts playing. You can apply other playback settings to the selected track using the “Options” menu (see below).

To use the “Options” menu
Press instead of ENTER in the above step to display the “Options” menu settings applicable to the track in the given situation. In the above example, the following items are available.

<table>
<thead>
<tr>
<th>Items</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>Play Song</td>
<td>Starts playing the track you selected from the beginning.</td>
</tr>
<tr>
<td>Add to Quicklist</td>
<td>Adding the selected track to the Quicklist.</td>
</tr>
</tbody>
</table>

◆Example: To apply “Play Song” to the selected track

1 Select “Play Song,” and press ENTER.

To play in other play mode
During playback, press PLAY MODE repeatedly. The selected item changes with each press: “Repeat Track” — “Repeat All” — “Random” — “Repeat Off”
See page 25 for details.

Hints
• See page 24 for the remote’s operations.
• Even after stopping playback, the player resumes playback from the last track you played.
• Depending on the writing software used, the displayed track or album names may be different from the characters you input.

Notes
• Playback time of MP3 audio tracks may not be displayed correctly.
• If you put an extension “.MP3” to a non-MP3 file, the file may accidentally play on the player. Note that such output may cause the connected device to malfunction.
• Playback may not start immediately after skipping to another album.
• When using the Resume function on MP3 tracks, playback starts from the beginning of the track.

About the “Music” (All Songs) Title List display

1 Detailed information
Displays details about the selected track.
• Artist: Displays the artist name.
• Album: Displays the album name.
• Genre: Displays the genre name.
• Format: Displays the coding format.

2 List area
Displays overall content.
• Main area: Displays the track names.
• Sub area: Displays the total playback time of each track.

About unplayable audio track files
The player does not play the file if:
– The DATA DVD is not recorded in an MP3 format that conforms to UDF (Universal Disk Format).
– The audio track file does not have the extension “.MP3.”
– The data is not formatted properly even though it has the extension “.MP3.”
– The data is not MPEG-1 Audio Layer III data.
– The data is recorded in mp3PRO format.
– The file name contains characters other than numbers and English alphabet.
Browsing by Artist, Album, Genre, Quicklist, or Folder

Narrow down the list of tracks by selecting the category type (e.g., “Genres”), then the category.

1. Press SYSTEM MENU.
2. Select “Title List,” and press ENTER.
3. Select “Music,” and press ENTER.
4. Press ← to turn on the Browse menu.
5. Select “Browse,” and press ENTER.
6. Select the list you want to view from “Artists,” “Albums,” “Genres,” “Quicklist” or “Folders,” and press ENTER.
   The list of artists/albums/genres/Quicklist/folders appears as above.
   For details about the Quicklist, see “Programming Playback (Quicklist)” (page 39).
7. Select the artist/albun/genre/Quicklist/folder you want to view, and press ENTER.

Hint
You can select a track from the list of tracks, and start playback by pressing ENTER or →, or using the “Options” menu (press →).

Searching for a Track

You can find the exact track, or tracks with a similar name.

1. Press SYSTEM MENU.
2. Select “Title List,” and press ENTER.
3. Select “Music,” and press ENTER.
4. Press ← to turn on the Browse menu.
5. Select “All Songs,” and press ENTER.
6. Press ← to turn on the Browse menu.
7. Select “Search,” and press ENTER to turn on the above display.
8. Enter the track name using the on-screen keyboard (see page 23).

Hints
- You can select a track from the search result, and start playback by pressing ENTER or →, or using the “Options” menu (press →).
- You can search for a genre, artist, album, or folder name from each Title List (e.g., “Genres”).
Programming Playback (Quicklist)

Play your favorite tracks in the order you like by making your own "Quicklist."

1. Press SYSTEM MENU.
2. Select "Title List," and press ENTER.
4. Press << to turn on the Browse menu.
5. Select "All Songs," and press ENTER.
6. When the "All Songs" Title List appears, select the track you want to add to the top of the "Quicklist," and press >>.
7. Select "Add to Quicklist" from the "Options" menu, and press ENTER.
8. Repeat step 6 and 7 to select all the desired tracks.
   Select in the order you want to play. You can add the same track multiple times.
   The "Quicklist" can contain up to 25 tracks.
9. Press << to turn on the Browse menu.
10. Select "Browse," and press ENTER.
11. Select "Quicklist," and press ENTER to turn on the above display.
    The "Quicklist" Title List appears with the programmed content.
12. Select the track you want to start playback, and press ENTER.

To remove the title from the "Quicklist"
1. Select the track you want to remove from the displayed "Quicklist," and press >>.
2. Select "Remove," and press ENTER.

Hint
You can play the "Quicklist" content in other play modes by pressing PLAY MODE (page 25).

Note
The "Quicklist" may be cleared after some operations (e.g., opening the disc tray, or turning off the player etc.).

The "Quicklist" does not affect the original recording on the disc.

Viewing Photo Files

Use the “Photos” Title List to view the JPEG images on DATA DVDs. You can reorder the files and start playing a slideshow.

Viewing All Folders

The “Photos” Title List first displays all the folders on the disc.

1. Press SYSTEM MENU.
2. Select “Title List,” and press ENTER.
3. Select “Photos,” and press ENTER.

The above “Folders” display appears, showing all folders (scrollable by pressing 

To use the Browse menu

Press ← after step 3 to display the items for “Photos” Title List. For operations, see the pages in parentheses. Available items differ depending on the display.

<table>
<thead>
<tr>
<th>Items</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>All Photos</td>
<td>Displays all files in alphabetical order (page 41).</td>
</tr>
<tr>
<td>Browse</td>
<td>Displays a list of dates, Quicklist, or folders (page 42).</td>
</tr>
<tr>
<td>Search</td>
<td>Searches for a file using the on-screen keyboard (page 42).</td>
</tr>
<tr>
<td>Sort</td>
<td>Reorders the files by date or alphabet (see below).</td>
</tr>
</tbody>
</table>

Example: To apply “Sort” to all files

1. To display the list of all files, select “All Photos” from the Browse menu and press ENTER.
2. Move the highlight to the left most row, and press ← to turn on the Browse menu.
3. Select “Sort,” and press ENTER.
4. Select the setting you want to sort by: “Recent first,” “Oldest first,” “By title (A→Z),” “By title (Z→A),” and press ENTER.
Playing a slideshow

1 After step 3 of “Viewing All Folders” above, press ← and select “All Photos” from the Browse menu.

2 Select the file you want to start from, and press ENTER to turn on the “Options” menu.

3 Select “Slideshow,” and press ENTER. Slideshow starts. You can apply other playback settings to the selected file using the “Options” menu (see below).

To use the “Options” menu
Available “Options” menu settings differ depending on the situation. In the above example of the use of the “Options” menu, the following items are available.

<table>
<thead>
<tr>
<th>Items</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>Slideshow</td>
<td>Starts playing a slideshow as above.</td>
</tr>
<tr>
<td>Add to Quicklist</td>
<td>Adds the selected file to the Quicklist for later slideshow playback.</td>
</tr>
</tbody>
</table>

To play in other play mode
During playback, press PLAY MODE repeatedly. The selected item changes with each press:
“Repeat All” — “Random” — “Repeat Off” See page 25 for details.

Hints
• See page 24 for the remote’s operations.
• Even after stopping playback, the player resumes playback from the last file you played.

Note
The photos may appear slowly depending on the size and the number of files.

About the “Photos” (All Photos) Title List display

1 Detailed information
- Displays details about the selected file.
  • File: Displays the file name.
  • Date: Displays the shooting date.
  • Resolution: Displays the picture resolution in width × height.
  • Format: Displays the recording format.

2 List area
- Displays overall photo content in thumbnail.

About unplayable photo files
The player does not play the file if:
- The DATA DVD is not recorded in a JPEG format that conforms to UDF (Universal Disk Format).
- The photo file is not recorded in a format that conforms to the DCF.
- The file has an extension other than “.JPEG.”
- The image is larger than 4,096 (width) × 4,096 (height) in normal mode, or progressive JPEG.
- The image does not fit the screen (the image is reduced).
- The file name contains characters other than numbers and English alphabet.
  • Even when the above are not applicable, some files may not play depending on the recording condition or the method (e.g., writer software).
  • Files may not play on this player if edited on a PC.

* “Design rule for Camera File system”: Image standards for digital cameras regulated by JEITA (Japan Electronics and Information Technology Industries Association).
Browsing by Date, Quicklist, or Folder

Narrow down the list of files by selecting the category type (e.g., “Date”), then the category.

1. Press SYSTEM MENU.
2. Select “Title List,” and press ENTER.
3. Select “Photos,” and press ENTER.
4. Press LEFT to turn on the Browse menu.
5. Select “Browse,” and press ENTER.
6. Select the list you want to view from “Date,” “Quicklist,” or “Folders” and press ENTER. The list of date/Quicklist/folders appears as above. For details about the Quicklist, see “Programming a Slideshow Playback (Quicklist)” (page 43).
7. Select the date/Quicklist/folder you want to view, and press ENTER.

Hint
You can select a file and start slideshow by using “Options” menu (press RIGHT).

Searching for a Photo

You can find the exact file, or files with a similar name.

1. Press SYSTEM MENU.
2. Select “Title List,” and press ENTER.
3. Select “Photos,” and press ENTER.
4. Press LEFT to turn on the Browse menu.
5. Select “All Photos,” and press ENTER.
6. Move the highlight to the leftmost row, and press LEFT to turn on the Browse menu.
7. Select “Search,” and press ENTER to turn on the above display.
8. Enter the file name using the on-screen keyboard (see page 23).

Hint
You can select a file and start slideshow by using “Options” menu (press RIGHT).
Programming a Slideshow Playback (Quicklist)

Play a slideshow in the order you like by making your own “Quicklist.”

1. Press SYSTEM MENU.
2. Select “Title List,” and press ENTER.
3. Select “Photos,” and press ENTER.
4. Press ← to turn on the Browse menu.
5. Select “All Photos,” and press ENTER.
6. When the “All Photos” Title List appears, select the file you want to add to the top of the “Quicklist,” and press ENTER.
7. Select “Add to Quicklist” from the “Options” menu, and press ENTER.
8. Repeat step 6 and 7 to select all the desired files.
   Select in the order you want to play. You can add the same file multiple times.
   The “Quicklist” can contain up to 25 files.
9. Move the highlight to the leftmost row, and press ← to turn on the Browse menu.
10. Select “Browse,” and press ENTER.
11. Select “Quicklist,” and press ENTER to turn on the above display.
   The “Quicklist” Title List appears with the programmed content.
12. Select the file you want to start playback, and press ENTER.
13. Select “Slideshow” from the “Options” menu, and press ENTER.

To remove from the “Quicklist”

1. Select the file you want to remove from the displayed “Quicklist,” and press ENTER.
2. Select “Remove,” and press ENTER.

Hint
You can play the “Quicklist” content in other play modes by pressing PLAY MODE (page 25).

Note
The “Quicklist” may be cleared after some operations (e.g., opening the disc tray, or turning off the player etc.).

The “Quicklist” does not affect the original recording on the disc.

43 Viewing Photo Files
Changing the Initial Settings

Select “Setup” from the “System Menu” when you need to change the settings of the player (e.g., when changing the connected device or the audio/video output, etc.). The last part of this section explains how to return all of these settings to their factory defaults.

**Note**
Playback settings described in this section may not work when there is any preset playback setting in the disc. The disc’s playback settings take priority over the player’s playback settings.

From the “System Menu,” enter the “Setup” displays to change the settings of the player.

1. Press SYSTEM MENU while the player is stopped.
2. Select “Setup,” and press ENTER.
3. Select the “Setup” display you want to use, from “Video Setup,” “Audio Setup,” “Language,” “Parental Control,” “Speakers,” or “Options,” and press ENTER.
   The “Setup” display appears with the related items. Note that the display switches to the screen saver if you do not operate for 15 minutes.
4. Select the item you want to change, and press ENTER.
   Refer to the explanations in the following sections.

To return to the previous display
Press RETURN.

<td>Source Direct</td>
<td></td>
<td>Output differs depending on source material*1</td>
<td>Output differs depending on source material*2</td>
<td>480i</td>
</tr>
</tbody>
</table>

*1 Outputs in the same resolution and frequency as recorded on the disc.
*2 1080/24p video signals are not output from the COMPONENT VIDEO OUT jacks.
*3 Outputs in the resolution of the original setting (720p or 1080i) when the DVD is not copy guarded.

Notes

- If the picture is not clear, natural or to your satisfaction, try another resolution that suits the disc and your TV/projector, etc. For the details, refer also to the instruction manual supplied with the TV/projector, etc.
- 480i or 480p video signals may be output when you connect to the COMPONENT VIDEO OUT jacks and play some copy-guarded BDs/DVDs. To enjoy the HD quality resolution in this case, connect the display device to the HDMI OUT jack using an HDMI cord.
- Even when you select a setting other than “Auto,” the player automatically adjusts the video signals if the TV cannot accept the set resolution.

To output the 1080/24p video signals

A 1080/24p-compatible TV is required for this setting.

2. Press VIDEO FORMAT repeatedly to select “Auto” or “Source Direct.”

Note

If there is no picture, press VIDEO FORMAT repeatedly until the picture appears correctly.
## Audio Setup

Underlined items are the default settings. Since many factors affect the type of audio output, see also “About the audio output signals” on page 48.

### Dolby Digital
- Select the audio signals output when playing Dolby Digital discs. This setting affects the output from the DIGITAL OUT (COAXIAL or OPTICAL) jack.

### Dolby Digital
- Select this when connecting to a device with a built-in Dolby Digital decoder.

### Downmix PCM
- Converts to output Linear PCM signals. Select this when connecting to a device without a built-in Dolby Digital decoder.

### DTS
- Select the audio signals output when playing DTS discs. This setting affects the output from the DIGITAL OUT (COAXIAL or OPTICAL) jack.

### DTS
- Select this when connecting to a device with a built-in DTS decoder.

### Downmix PCM
- Converts to output Linear PCM signals. Select this when connecting to a device without a built-in DTS decoder.

### DTS Downmix
- Select the type of 2-channel signals when down-mixed from multi-channel DTS sources (effective for audio connections when “DTS” is set to “Downmix PCM”).

### Stereo
- Downmixes multi-channel audio signals for two channel stereo.

### Lt/Rt
- Allows you to hear surround sound when the connected device has a built-in Dolby Pro Logic decoder.

### Audio (HDMI)
- Select the output method from the HDMI OUT jack.

### Auto
- Normally, select this. Outputs audio signals according to the status of the connected HDMI device.

### PCM
- Converts all audio signals to Linear PCM.
### About the audio output signals

The audio output differs as follows, depending on the source, output jack, and the selected settings.

<table>
<thead>
<tr>
<th>Disc/source</th>
<th>Jacks/settings</th>
<th>AUDIO OUT L/R jacks&lt;sup&gt;4&lt;/sup&gt;</th>

Parental Control

This function limits playback of DVD VIDEOS and BD-ROMs. To activate, see “Locking a Disc” (page 29). The default settings are underlined.

Notes

- You cannot limit playback if the disc does not have the Parental Control function.
- If you forget the password for “Parental Control,” you will need to reset the player (page 53). Note that all the settings you made also return to their defaults.

### Next Screen

1. Select the speaker setting that needs adjusting by pressing ↑/↓.
   - “C” (center speaker): “Yes” or “No”
   - “Ls/Rs” (left surround speaker/right surround speaker): “Yes” or “No”
   - “L/R” (left front speaker/right front speaker): “Large” or “Small”

2. Adjust the setting by pressing ↔/→.
   - For “C” and “Ls/Rs,” select whether the speakers are included in your system.
   - For “L/R,” select the size. This setting is disabled if either of “C” or “Ls/Rs” is set to “No.”

3. Press ENTER to save the adjustments.
## Options

Underlined items are the default settings.

Resetting the Player

You can return all of the player settings to their factory defaults.

1. When the power is on, hold down the power button on the front panel, and press L/\.
   The player turns off, and all of the settings return to their factory defaults.
If you experience any of the following difficulties while using the player, use this troubleshooting guide to help remedy the problem before requesting repairs. Should any problem persist, consult your nearest Sony dealer (For customers in the USA only).

**Power**

**The power does not turn on.**

- Check that the power cord is connected securely.
- It takes a short while before the player turns on.

**Picture**

**There is no picture/picture noise appears.**

- Re-connect the connecting cord securely.
- The connecting cords are damaged.
- Check the connection to your TV (page 10) and switch the input selector on your TV so that the signal from the player appears on the TV screen.
- The disc is dirty or flawed.
- If the picture output from your player goes through your VCR to get to your TV or if you are connected to a combination TV/VIDEO player, the copy-protection signal applied to some BD/DVD programs could affect picture quality. If you still experience problems even when you connect your player directly to your TV, try connecting your player to your TV’s S VIDEO input (page 10).
- The player is connected to an input device that is not HDCP-compliant (the HDMI indicator on the front panel does not light up). See page 11.
- If the HDMI OUT jack or the COMPONENT VIDEO OUT jacks are used for video output, changing the output resolution may solve the problem (page 46). Press VIDEO FORMAT repeatedly until the picture appears correctly.
- Depending on the disc, the picture quality may be poor when the VIDEO FORMAT setting is set to other than “480i,” even when the player is connected to a progressive or HD TV using a component cord or an HDMI cord. If this happens, press VIDEO FORMAT repeatedly to switch to “480i.”
- When playing a double-layer DVD, the video and audio may be momentarily interrupted at the point where the layers switch.

**There is no picture or picture noise appears when connected to the HDMI OUT jack.**

- Try the following: ①Turn the player off and on again. ②Turn the connected equipment off and on again. ③Disconnect and then connect the HDMI cord again.
- If the HDMI OUT jack is used for video output, changing the video output resolution may solve the problem (page 46). Press VIDEO FORMAT repeatedly until the picture appears correctly.
The picture does not fill the screen, even though the aspect ratio is set in “TV Type” under “Video Setup.”

- The aspect ratio of the disc is fixed on your BD/DVD. See page 45.

The dark area of the picture is too dark/the bright area is too bright or unnatural.

- Set “Video Control” in “A/V Control” to “Standard” (default) (page 28).
- Adjust each picture setting for “Memory” in “Video Control” to midpoint (default) (page 28).

Sound

There is no sound.

- The disc is dirty or flawed.
- Re-connect the connecting cord securely.
- The connecting cord is damaged.
- The player is connected to the wrong input jack on the amplifier (receiver) (page 12).
- The amplifier (receiver) input is not correctly set.
- The player is in pause mode or in Slow-motion Play mode.
- The player is in scan mode.
- If the audio signal does not come through the DIGITAL OUT (OPTICAL or COAXIAL)/HDMI OUT jack, check the audio settings (page 47).
- The equipment connected to the HDMI OUT jack does not conform to the audio signal format, in this case set “Audio (HDMI)” in “Audio Setup” to “PCM” (page 47).

The sound is not output correctly.

- Check the “Audio Output Mode” in “Speakers” Setup (page 51) if the AUDIO OUT (L/R) jacks or the 5.1CH OUTPUT jacks are used for audio connection.

No sound is output from the HDMI OUT jack

- Try the following: ①Turn the player off and on again.
- ②Turn the connected equipment off and on again.
- ③Disconnect and then reconnect the HDMI cord.
- The HDMI OUT jack is connected to a DVI device (DVI jacks do not accept audio signals).

The sound volume is low.

- The sound volume is low on some BDs/DVDs. The sound volume may improve if you adjust the “Audio Control” setting in “A/V Control” (page 27).

Operation

The remote does not function.

- The batteries in the remote are weak (page 16).
- There are obstacles between the remote and the player.
- The distance between the remote and the player is too far.
- The remote is not pointed at the remote sensor on the player.

The disc does not play.

- The disc is turned over. Insert the disc with the playback side facing down.

- The disc is skewed.
- The player cannot play certain discs (page 6).
- The region code on the BD/DVD does not match the player.
- Moisture has condensed inside the player (page 3).
- The player cannot play a recorded disc that is not correctly finalized (page 6).
- The movie file size exceeds 2 GB.
- The file on the DATA DVD contains characters other than numbers and English alphabet.

The MP3 audio track file cannot be played (page 36).

- The DATA DVD is not recorded in the MP3 format that conforms to UDF (Universal Disk Format).
- The audio track file does not have the extension “.MP3.”
- The data is not formatted properly even though it has the extension “.MP3.”
- The data is not MPEG-1 Audio Layer III data.
- The player cannot play audio tracks in mp3PRO format.
- Characters other than numbers and English alphabet are contained in the file name.

The photo file cannot be played (page 40).

- The disc is dirty or flawed.
- The DATA DVD is not recorded in a JPEG format that conforms to UDF (Universal Disk Format).
- The file has an extension other than “.JPEG” or “.JPG.”
- The image is larger than 4,096 (width) × 4,096 (height) in normal mode. (Some progressive JPEG files cannot be displayed even if the file size is within this specified capacity.)
- The image does not fit the screen (the image is reduced).
- The photo file format does not conform to DCF* (page 41).
- Characters other than numbers and English alphabet are contained in the file name.
- *“Design rule for Camera File System”: Image standards for digital cameras regulated by JEITA (Japan Electronics and Information Technology Industries Association).

The file name is not correctly displayed.

- The player can only display numbers and alphabet. Other characters may be displayed differently.
- Depending on the writing software used, the input characters may be displayed differently.

The disc does not start playing from the beginning.

- Random Play or Repeat Play is selected (page 25).
- Resume play mode is on (page 20).

The player starts playing the disc automatically.

- The disc features an auto playback function.

Playback stops automatically.

- While playing discs with an auto pause signal, the player stops playback at the auto pause signal.
Some functions such as Stop, Search, Slow-motion Play, Repeat Play, or Random Play cannot be performed.

- Depending on the disc, you may not be able to do some of the operations above. Refer to the operating manual that comes with the disc.

The language for the soundtrack cannot be changed.

- Try using the BD's or DVD's menu instead of the direct selection button on the remote (page 21).
- Multi-lingual tracks are not recorded on the BD/DVD being played.
- The BD/DVD prohibits the changing of the language for the sound track.

The subtitle language cannot be changed or turned off.

- Try using the BD’s or DVD’s menu instead of the direct selection button on the remote (page 21).
- Multi-lingual subtitles are not recorded on the BD/DVD being played.
- The BD/DVD prohibits the changing of subtitles.

The angles cannot be changed.

- Try using the BD’s or DVD’s menu instead of the direct selection button on the remote (page 21).
- Multi-angles are not recorded on the BD/DVD being played.
- The BD/DVD prohibits changing of the angles.

The HDMI Control function does not work.

- If the HDMI indicator on the front panel does not light up, check the HDMI connection (page 11, 15).
- Set “HDMI Control” to “On” (page 52).
- Make sure that the connected component is compatible with the HDMI Control function. Refer to the operating instructions of the component for details.
- Check that the power cord of the connected component is connected securely.
- Check the connected component’s setting for the HDMI Control function. Refer to the operating instructions of the component.
- If you change the HDMI connection, connect and disconnect the power cord, or if power failure occurs, set “HDMI Control” to “Off,” then set “HDMI Control” to “On” (page 52).
- For details on the HDMI Control function, see “About the ‘BRAVIA’ Theatre Sync features (for HDMI connections only)” (page 11).

The display language on the screen switches automatically.

- When “HDMI Control” is set to “On” (page 52), the display language on the screen automatically switches according to the language setting of the connected TV (if you change the setting on your TV, etc).

The player does not operate properly.

- When static electricity, etc., causes the player to operate abnormally, unplug the player.

The disc tray does not open and “LOCK” appears on the front panel display.

- Contact your Sony dealer or local authorized Sony service facility.

The disc tray does not open and you cannot remove the disc even after you press ▲.

- Turn on the player.
  As soon as “POWER ON” appears on the front panel display, press ▲ on the player (not the remote) repeatedly until the tray opens. Repeat the above procedure several times if the tray does not open on the first try.

“UNPLAYABLE” appears when playing a DATA DVD.

- See also “The photo file cannot be played” or “The MP3 audio track file cannot be played” (page 55).
- The MP3 audio track/JPEG image file you want to play/view is damaged.
- The data is not MPEG-1 Audio Layer III data.
- The JPEG image file format does not conform to DCF* (page 41).
- The JPEG image file has the extension “.JPG” or “.JPEG,” but is not in JPEG format.
  * “Design rule for Camera File system”: Image standards for digital cameras regulated by JEITA (Japan Electronics and Information Technology Industries Association).

The player does not accept any button.

- Hold down U/O on the player for more than five seconds until the indicators on the front panel display turn off.
Self-Diagnosis Function

When the self-diagnosis function is activated to prevent the player from malfunctioning, the “ERR” error code appears on the front panel display indicating the cause.

<table>
<thead>
<tr>

GNU License Information

Regarding the GNU General Public License

The software programs used on this component include the GNU/Linux system. The GNU/Linux system contains software licensed for use exclusively on the terms of a GNU General Public License. If necessary, the user may request the source code for this licensed software. The source code is available on our website. Access the following URL to download: http://www.sony.net/Products/Linux

Please refrain from making inquiries about the source code content. Details of the GNU General Public License can be found at the GNU website (http://www.gnu.org/).

GNU General Public License

Version 2, June 1991
Copyright (C) 1989, 1991 Free Software Foundation, Inc.
59 Temple Place - Suite 330, Boston, MA 02111-1307, USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

◆Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software—freely available software that is distributed almost in the same Lust as the Sun is free to the sky.

The General Public License applies to most of the Free Software Foundation’s software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you permission to copy, distribute and/or modify the software. Also, for each author’s protection and ours, we want to make certain that everyone understands that there is no warranty for this free software.

If the software is modified by someone and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors’ reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone’s free use or not licensed at all. The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The “Program”, below, refers to any such program or work, and a “work based on the Program”, means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation includes without limitation the term “modification”.) Each licensee is addressed as “you”.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that work is covered depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program’s source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice, a permission notice stating that the Program is covered by this License; keep intact all notices that refer to this License and to the absence of any of these notices; and disclaim any warranties.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program (even verbatim copies), to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the

Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you. Rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above in a medium customarily used for software interchange; or,

c) Accompany it with the information you received as of the terms under which you received the program; this information is a license, and any distribution of source code modified or deleted from its original form must include all of the source code modified or added.

Thus, a work covered by this License, other than a work which is otherwise covered, produces source code which is distributed under the terms of this License, must be made available under the terms of this License (without any Incompatibility).

4. You may not copy, modify, sublicense, or distribute the Program except as expressly permitted under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License.

However, parties who have received a copy, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have received a copy of it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the
6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any additional restrictions on the recipients’ exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License. If, as a consequence of a court judgment or a conviction, you are forced to redistribute the Program without permission of the original licensor, this section is ceaselessly nullified.

7. If, as a consequence of a court judgment or a conviction, you are forced to redistribute the Program without permission of the original licensor, this section is ceaselessly nullified.

8. If the distribution and/or use of the Program is restricted in certain countries either by patent, copyright or other legal means, you may not offer it free, for distribution the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. Each version is given a version number.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Copyright Holder to ask for permission to incorporate the software into other free software programs.

Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU AND ANY ENTITY YOU MAY OPERATE WITH OR FOR THE PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program, or if there is none already, add the notice below, and license the program under your own terms.

Copyright (C) <year> <name of author>

Permission is granted to anyone to copy, distribute, modify, or sell copies of the free software program, or any modified version, provided you meet the above requirements and observe the following terms:

You must give full source code for any substantial modification.

You must also provide information on how to contact the author.

Additional Information
and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) a licensing library, and (2) we require you to refer to this license, which gives you legal permission to copy, distribute and/or modify the library. To protect each distributor, we want to make it very clear that there is no warranty for free software; and that the original author’s reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of this library must be consistent with the full freedom of use specified in this license. Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore requires the linking of the library with the Library creates an application. Therefore, Subsection 2d of this License applies to each and every part regardless of whether (e) that you accompany it with the complete corresponding machine-readable source code means all the source code for all object code is made by you, in object code form, and distributed under the same terms as part of a whole which is a work based on the Library, the distribution of the whole must be considered a derivative of the Library, whose license, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collaborative works based on the Library. In addition, mere aggregation of another work not based on the Library with the Library does not make the other work a derivative work based on the Library on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU Public General License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If there is a newer version of the ordinary GNU General Public License, then you may specify that version instead of version 2.)

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library".

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collaborative works based on the Library. In addition, mere aggregation of another work not based on the Library with the Library does not make the other work a derivative work based on the Library on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU Public General License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If there is a newer version of the ordinary GNU General Public License, then you may specify that version instead of version 2.)

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library".

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collaborative works based on the Library. In addition, mere aggregation of another work not based on the Library with the Library does not make the other work a derivative work based on the Library on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If there is a newer version of the ordinary GNU General Public License, then you may specify that version instead of version 2.)

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library".

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collaborative works based on the Library. In addition, mere aggregation of another work not based on the Library with the Library does not make the other work a derivative work based on the Library on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If there is a newer version of the ordinary GNU General Public License, then you may specify that version instead of version 2.)

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library".

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collaborative works based on the Library. In addition, mere aggregation of another work not based on the Library with the Library does not make the other work a derivative work based on the Library on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If there is a newer version of the ordinary GNU General Public License, then you may specify that version instead of version 2.)

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library".

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collaborative works based on the Library. In addition, mere aggregation of another work not based on the Library with the Library does not make the other work a derivative work based on the Library on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If there is a newer version of the ordinary GNU General Public License, then you may specify that version instead of version 2.)

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library".

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collaborative works based on the Library. In addition, mere aggregation of another work not based on the Library with the Library does not make the other work a derivative work based on the Library on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If there is a newer version of the ordinary GNU General Public License, then you may specify that version instead of version 2.)

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library".

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collaborative works based on the Library. In addition, mere aggregation of another work not based on the Library with the Library does not make the other work a derivative work based on the Library on a volume of a storage or distribution medium does not bring the other work under the scope of this License.
then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus other portions of the Library will still fall under Section 6.) Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a “work that uses the Library” with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer’s own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License.

Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above) and all other files associated with that copy, including those which are used in the execution of the work, which are derived from the Library.

b) Offer, for any additional fees you may charge, source code, compiled executables, and/or Machine-Readable source code for the Library, under the terms and conditions of Sections 1 through 7 of this License.

c) Accompany the work with the source code for the work itself, under the terms and conditions of Sections 1 through 7.

d) Accompany the work with the object code, under the terms and conditions of Sections 1 through 7.

e) Verify that the user has already received a copy of the Library, under the terms and conditions of Sections 1 through 7.

63 Additional Information

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through this system in reliance on consistent application of that system; it is up to the author/donor to restrict the redistribution of such contributions.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and “any later version”, you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY DIRECT, INDIRECT, SPECIAL OR CONSEQUENTIAL DAMAGES, RESULTING FROM THE USE OR INABILITY TO USE THE LIBRARY OR FROM OTHER DEALINGS IN THE LIBRARY.
ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to each start of source file to most effectively convey the exclusion of warranty; and each file that is changed by non-tree copyright holders in the library must usually also be changed in distributed binary forms.

Copyright (C) year name of author

Permission is granted to copy and distribute verbatim copies of this library documentation and its supporting documentation for any purpose and without fee, provided that you do not modify it.

Original SSLeay License

Original SSLeay
Copyright (C) 1995-1998 Eric Young (eay@cryptsoft.com)

This library is free for commercial and non-commercial use as long as the following conditions are met:

1. Redistributions of source code must retain the copyright notice, this list of conditions and the following disclaimer.

2. Redistributions in binary form must reproduce the above copyright notice, this list of conditions and the following disclaimer in the documentation and/or other materials provided with the distribution.

3. All advertising materials mentioning features or use of this software must display the following acknowledgment:
   “This product includes cryptographic software written by Eric Young (eay@cryptsoft.com)”

   The word ‘cryptographic’ can be left out if the rouines being referred to are not cryptographic related :-).
   Redistribution and use in source and binary forms, with or without modification, are permitted provided that the following conditions are met:

1. Redistributions of source code must retain the copyright notice, this list of conditions and the following disclaimer.

2. Redistributions in binary form must reproduce the above copyright notice, this list of conditions and the following disclaimer in the documentation and/or other materials provided with the distribution.

3. All advertising materials mentioning features or use of this software must display the following acknowledgment:
   “This product includes cryptographic software written by Eric Young (eay@cryptsoft.com)”
LIBPNG COPYRIGHT NOTICE, DISCLAIMER, and LICENSE:

If you modify libpng you may insert additional notices immediately following this sentence.

libpng version 1.2.6, December 3, 2004, is Copyright (c) 2004 Glenn Randers-Pehrson, and is distributed according to the same disclaimer and license as libpng-1.2.5 with the following individual added to the list of Contributing Authors:

Simon Pierre Cadieux
Eric S. Raymond
Gilles Vollant

and with the following additions to the disclaimer:

There is no warranty for this software, to the extent to which it is distributed in the absence of any notice of its copyright. You are free to modify and use it without any warranty, either express or implied, for any purpose, including commercial purposes, and by including it in a product or other work. Any warranty that may be implied by law is limited to the above notice.

AACS
“Advanced Access Content System” is a specification for managing digital entertainment contents stored on the next generation of prerecorded and recorded optical media. The specification enables consumers to enjoy digital entertainment content, including high-definition content.

AVCHD (page 6)
The AVCHD format is a high definition digital video camera format used to record SD (standard definition) or HD (high definition) signals of either the 1080i specification or the 720p specification on DVDs, using efficient data compression coding technology. The MPEG-4 AVC/H.264 format is adopted to compress video data, and the Dolby Digital or Linear PCM is used to compress audio data. The MPEG-4 AVC/H.264 format is capable of compressing images at higher efficiency than that of the conventional image compression format. The MPEG-4 AVC/H.264 format enables a high definition (HD) video signal shot on a digital video camera recorder to be recorded on DVDs in the same way as for a standard definition (SD) television signal.

BD-J application
The BD-ROM format supports Java for interactive functions. “BD-J” offers content providers almost unlimited functionality when creating interactive BD-ROM titles.

BD-R
BD-R (Blu-ray Disc Recordable) is a recordable, write-once Blu-ray Disc, available in the same capacities as the BD below. Since contents can be recorded and cannot be overwritten, a BD-R can be used to archive valuable data or storing and distributing video material.

BD-RE
BD-RE (Blu-ray Disc Rewritable) is a recordable and writable Blu-ray Disc, available in the same capacities as the BD below. The re-recordable feature makes extensive editing and time-shifting applications possible.

BD-ROM (page 5)
BD-ROMs (Blu-ray Disc Read-Only Memory) are commercially produced discs and are available in the same capacities as the BD below. Other than conventional movie and video contents, these discs have enhanced features such as interactive content, menu operations using pop-up menus (see below), selection of subtitle display, and slideshow. Although a BD-ROM may contain any form of data, most BD ROM discs will contain movies in High Definition format, for playback on Blu-ray Disc players.

Blu-ray Disc (BD) (page 5)
A disc format developed for recording/playing high-definition (HD) video (for HDTV, etc.), and for storing large amounts of data. A single layer Blu-ray Disc holds up to 25 GB, and a dual-layer Blu-ray Disc holds up to 50 GB of data.

Chapter (page 25)
Sections of a picture or a music feature that are smaller than titles. A title is composed of several chapters. Depending on the disc, no chapters may be recorded.

Dolby Digital (page 47)
Digital audio compression technology developed by Dolby Laboratories. This technology conforms to multi-channel surround sound. The rear channel is stereo and there is a discrete subwoofer channel in this format. Dolby Digital provides the same discrete channels of high quality digital audio found in “Dolby Digital” theater surround sound systems. Good channel separation is realized because all of the channel data is recorded discretely and little deterioration occurs because all channel data processing is digital.

Dolby Digital Plus (page 48)
Developed as an extension to Dolby Digital, the audio coding technology supports 7.1 multi-channel surround sound.

Dolby Surround (Pro Logic) (page 47)
Audio signal processing technology that Dolby Laboratories developed for surround sound. When the input signal contains a surround component, the Pro Logic process outputs the front, center and rear signals. The rear channel is monaural.

Dolby TrueHD (page 48)
Dolby TrueHD is a lossless coding technology that supports up to 8 channels of multi-channel surround sound for the next generation optical discs. The reproduced sound is true to the original source bit-for-bit.

DTS (page 47)
Digital audio compression technology that DTS, Inc. developed. This technology conforms to multi-channel surround sound. The rear channel is stereo and there is a discrete subwoofer channel in this format. DTS provides the same discrete channels of high quality digital audio. Good channel separation is realized because all of the channel data is recorded discretely and little deterioration occurs because all channel data processing is digital.

DTS-HD (page 48)
DTS-HD is an extended format of the Coherent Acoustics audio coding system, which also encompasses DTS Digital Surround, DTS-ES, and DTS 96/24. DTS-HD is highly flexible in supporting the number of discrete surround sound channels. While 7.1ch surround sound is planned for Blu-ray Discs, the audio signals can be downmixed to 5.1 or 2 channels for backward compatibility, and the reproduced audio quality can either be at the bit rate of DTS Digital Surround or the lossless mode.

DVD VIDEO (page 5)
A disc format that contains up to eight hours of moving pictures on a disc the same diameter as a CD. A single-layer single sided DVD holds up to 4.7 GB; a double layer single-sided DVD, 8.5 GB; a single layer double-sided DVD, 9.4 GB; double-layer double-sided DVD, 17 GB. The MPEG 2 format is adopted for the efficient video data compression. The variable rate coding technology that changes the data to be allocated according to the status of the picture is adopted for reproducing high-quality pictures. Audio information is recorded in a multi-channel format, such as Dolby Digital, allowing for a realistic audio presence.
### DVD-R (page 5)
A DVD-R is a recordable disc that is the same size as a DVD VIDEO. Contents can be recorded only once to a DVD-R, and will have the same format as a DVD VIDEO. The DVD-R has two different modes: VR mode and Video mode. DVDs created in Video mode have the same format as a DVD VIDEO, while discs created in VR (Video Recording) mode allow the contents to be programmed or edited.

### DVD-RW (page 5)
A DVD-RW is a recordable and rewritable disc that is the same size as a DVD VIDEO. The DVD-RW has two different modes: VR mode and Video mode. DVDs created in Video mode have the same format as a DVD VIDEO, while discs created in VR (Video Recording) mode allow the contents to be programmed or edited.

### DVD+R (page 5)
A DVD+R (read “plus R”) is a recordable disc that is the same size as a DVD VIDEO. Contents can be recorded only once to a DVD+R, and will have the same format as a DVD VIDEO.

### DVD+RW (page 5)
A DVD+RW (read “plus RW”) is a recordable and rewritable disc. DVD+RWs use a recording format that is comparable to the DVD VIDEO format.

### Film-based software, Video-based software
DVDs can be classified as Film-based or Video-based software. Film-based DVDs contain the same images (24 frames per second) that are shown at movie theaters. Video-based DVDs, such as television dramas or sitcoms, display images at 30 frames (or 60 fields) per second.

### HDMI (High-Definition Multimedia Interface)
HDMI is an interface that supports both video and audio on a single digital connection. The HDMI connection carries standard to high definition video signals and multi-channel audio signals to AV components such as HDMI equipped TVs, in digital form without degradation.

The HDMI specification supports HDCP (High-bandwidth Digital Contents Protection), a copy protection technology for digital entertainment contents for HDMI.

### Interface format
Interface format shows every other line of an image as a single “field” and is the standard method for displaying images on television. The even number field shows the even numbered lines of an image, and the odd numbered field shows the odd numbered lines of an image.

### MPEG-2
One of the video data compression schemes established by the Moving Picture Experts Group (MPEG), which is adopted for DVD VIDEOS and digital broadcasts worldwide. The scheme specifies MPEG-2 PS (Program Stream) for recordable media such as a DVD VIDEO, and MPEG-2 TS (Transport Stream) for digital broadcasts and other communications.

### Pop-up menu
An enhanced menu operation available on BD-ROMs. The pop-up menu appears when MENU is pressed during playback, and can be operated while playback is in progress.

### Progressive format
Compared to the Interlace format that alternately shows every other line of an image (field) to create one frame, the Progressive format shows the entire image at once as a single frame. This means that while the Interlace format can show 30 frames/60 fields in one second, the Progressive format can show 60 frames in one second. The overall picture quality increases and still images, text, and horizontal lines appear sharper.

### Title (page 26)
The longest section of a picture or music feature on a DVD, movie, etc., in video software, or the entire album in audio software.

---

### Specifications

#### System
- **Laser:** Semiconductor laser

#### Outputs
- **(Jack name: Jack type/Output level/Load impedance)**
  - **AUDIO OUT L/R:**
    - Phono jack/2 Vrms/10 kilohms
  - **DIGITAL OUT (OPTICAL):**
    - Optical output jack/–18 dBm (wavelength 660 nm)
  - **DIGITAL OUT (COAXIAL):**
    - Phono jack/0.5 Vp-p/75 ohms
  - **5.1CH OUTPUT:**
    - Phono jack/2 Vrms/10 kilohms

#### HDMI OUT:
- HDMI 19-pin standard connector

#### COMPONENT VIDEO OUT (Y, Pb, Pr):
- Phono jack/Y: 1.0 Vp-p, Pb, Pr: progressive or interlace
  - 0.7 Vp-p/75 ohms
- **VIDEO:**
  - Phono jack/1.0 Vp-p/75 ohms
- **S VIDEO:**
  - 4-pin mini DIN/Y: 1.0 Vp-p, C: 0.286 Vp-p/75 ohms

#### General
- **Power requirements:** 120 V AC, 60 Hz
- **Power consumption:** 33 W
- **Dimensions (approx.):** 430 × 79 × 375 mm (17 × 3 1/8 × 14 7/8 in.) (width/height/depth) incl. projecting parts
- **Mass (approx.):** 4.5 kg (10 lb)
- **Operating temperature:** 5 ºC to 35 ºC (41°F to 95°F)
- **Operating humidity:** 25 % to 80 %

#### Supplied accessories
See page 9.

Specifications and design are subject to change without notice.
