Recording is easy with the PC compatible ICD-PX333 digital voice recorder. With Voice Operated Recording, it starts and stops automatically with your voice. Over 1000 hours of recording time plus Micro SD expansion slot for more time, you’ll never miss a class or those random thoughts or ideas.

All around recording
Introducing the ideal digital voice recorder for business, school, and personal recording, delivering Sony’s legendary ease of use with superior recording and audio playback capability.

Built-in 4 GB flash memory
4 GB of available internal flash memory provides ample space for recording life’s important moments-up to 1,073 hours in fact.1

Mono Microphone
Capture thoughts, dictations and other details with great clarity via the built-in microphone. Via an external microphone (available separately), stereo recordings can also be made when necessary.

Memory Card Expansion Slot
A built-in Memory Card Expansion Slot (microSD/M2) allows for additional recording time via removable flash memory. It can also be used to transfer recordings to a computer.

Scene Select
Select a pre-determined recording mode with the push of a button. Automatically the unit will optimize the settings for recording notes, lectures, music etc.

Intelligent Noise Cut
Intelligent Noise Cut, a unique and innovative technology from Sony, significantly reduces ambient noise during recording for clearer playback.

A-B Repeat
Mark the beginning and ending of a particular recorded passage for repeated playback over and over again-perfect for language learning.

Track Mark
Finding an exact spot in your recording is a snap. Place up to 98 track marks in each recorded file which can be “jumped” to for playback.

Add/Overwrite
Did you forget a thought or mis-speak? With Add/Overwrite capability, adding to or overwriting recordings during playback is quick and easy.

PC and Mac® compatibility
Transfer files quickly and easily with the supplied USB cable. Works with Windows® as well as Macintosh® computers.3

Battery Operated
Two AAA batteries (included) will deliver up to 96 hours of recording time so you will never miss a beat.2
