Setting up the BRAVIA® Internet Video Link

Your BRAVIA LCD TV includes BRAVIA Internet Video Link. The Sony BRAVIA Internet Video Link brings on-demand entertainment and information from the Internet, including movies, news, traffic, and weather.

High-speed Internet access is also required. Power off your TV before beginning the setup.

1. Remove Cable Cover
   - Remove the cable cover to expose the ports located on the bottom of the receiver.

2. Connect Cables
   - Connect the cables in the order shown below.
   - Look for the serial number found on the bottom of the receiver to record in the Owner's Record.

3. Connect to TV
   - Connect the large end of the USB cable to the DMX-NV1 port.
   - Connect the straight end of the HDMI cable to any HDMI port on the TV.

4. Connect to the Internet
   - Choose one of the following recommendations to connect the BRAVIA Internet Video Link receiver to the Internet with easy “plug and play.” Connect an Ethernet cable (not supplied) between the receiver and your Internet source.
   - Gaming Adapter as Wireless Bridge
   - Powerline Ethernet Adapter
   - Direct to Router

5. Verify Connection
   - Plug in the receiver and power on the TV.
   - Once the receiver and TV are powered on, confirm the LED lights.

6. Confirm Connection
   - Follow these instructions to confirm.
   - a. Press the DNx® button on your TV’s remote control to view the connection status.
   - b. If “Feature available with DMX module” appears on the screen, wait a few moments and try again.
   - c. The first time the receiver is connected to the Internet, the software may require an update.
   - d. Follow the instructions on-screen to complete Region Setup.

7. Attach Cable Cover
   - Slide the cable cover back into place.

**For Your Convenience**
- Please read all instructions before beginning the installation. Refer to the separate Attachment Guide for instructions on mounting to your TV.
- If you need to configure a fixed IP address or proxy server, check the Operating Instruction Manual for more information.
- If you need to configure a fixed IP address or proxy server, check the Operating Instruction Manual for more information.
- IMPORTANT: Do not press the INPUT button on the remote control to access the BRAVIA® Internet Video Link. It is available on the XMB™.
Using Your TV's Remote Control with Your Receiver

Use your Sony TV's remote control with the DMe® button to operate the BRAVIA Internet Video Link receiver.

Helpful Hints and Troubleshooting

• The receiver should be installed near an easily accessible power outlet.
• To turn on or off the receiver, unplug it from the wall.
• Test the receiver's connection before attaching it to your TV, especially if you are mounting the TV to a wall.
• If icons related to the receiver do not appear as shown in step 6 of Setting up the BRAVIA Internet Video Link, check your cable connections and Internet connection.
• Make sure that the USB and the HDMI cables are connected to the receiver and to the corresponding ports on the TV set.
• Verify your connection by ensuring the Internet Video Link is shown on the XMB® under the Settings menu.
• If the screen is black, press the HOME button to access the XMB®, and select an icon associated with the receiver. Do not try to access the receiver using the INPUT button on the remote control. The HDMI input on the TV may not activate the receiver.
• To view more videos while in the Internet Video Guide, press the OPTIONS button and select a new category from the list. Select Home Category to return to the main page.
• Some videos may not be available for viewing, depending on the TV's Parental Lock settings.
• Videos saved to My Video Links may not be available if the service content provider has removed the video from their server.
• Your receiver will update software from time to time. See the Operating Instruction Manual (online) for more details.
• It is normal to see a black screen following an update or a reset of the receiver. To proceed, press the HOME button and select an icon from the XMB®.

Getting to Know Your Receiver

Internet Video Guide

BRAVIA Internet Video Link is a gateway that brings Internet videos straight to your BRAVIA TV. Follow these instructions to access each individual service content provider's Internet Video Guide.

1. Press HOME on the remote control to access the Video menu on the XMB® (XrossMediaBar®).
2. Press the # button to highlight the content provider of your choice.
3. Press @ to open the Internet Video Guide with videos provided by the content provider.

The videos in the Internet Video Guide are arranged in thumbnails. Each video's title and parental guideline rating is labeled in the lower left-hand corner of the screen.

1. Scroll between videos using the #:## buttons. To page up and down, press CH +/-. Highlight the video you want to play.
2. Press @ or $ to begin playing the video.
3. In the Internet Video Guide, press OPTIONS and select a category from the list to view more videos.

Video Playback

• Press @ or $ to Pause the video during playback. Press @ or $ to Play.
• Press the RETURN button to stop the video and return to the Internet Video Guide.
• Press #:## to zoom in/out.
• Press OPTIONS to display other available options.
• For additional remote control operations while playing a video, see the "Using Your TV's Remote Control with Your Receiver" section.

Original quality of the picture may be lost when zooming in or out.

My Video Links

Follow the instructions below to save videos to My Video Links for quick and easy viewing.

1. In the Internet Video Guide, highlight the video you wish to save.
2. Press the OPTIONS button and select Save this Link.

View My Video Links

1. Press the HOME button and highlight the Video icon on the XMB®.
2. Press the #:## button to select My Video Links.

The Favorites button on your TV's remote control is specifically for TV channel Favorites.

My Page

You must complete Region Setup before accessing this feature.

Your Page gives you instant access to news, weather, and traffic information, all with the click of a button.

To access My Page, press the shortcut button, DMe®, on your remote control.

To control the news articles:
1. Press the #:## buttons on your TV's remote control to change source.
2. Press the #:## buttons to change topics.
3. Press @ to view the full article in a new screen.

My Page is also available from the Network icon on the XMB®.

Messages

From time to time, Sony and the service content providers will send important information to your Messages Inbox.

To open your Messages Inbox:
1. Press HOME on your TV's remote control to access the Network menu on the XMB® (XrossMediaBar®).
2. Highlight the Messages icon and press @.
3. Your Messages Inbox will open. To read a message, highlight it using the #:## buttons and press $.
