Portable CD Player

Operating Instructions

About the area code
The area code of the location in which you purchased the CD player is shown on upper left of the bar code label on the package. For accessories supplied with your CD player, check the area code of your model and see “Accessories (supplied/optional).”
CAUTION
The use of optical instruments with this product will increase eye hazard.

Owner’s Record
The model number is located at the rear and the serial number is located inside the lid of the CD player. Record these numbers in the spaces provided below. Refer to them whenever you call upon your Sony dealer regarding this product.
Model No. ___________________
Serial No. ___________________

Certain countries may regulate disposal of the battery used to power this product. Please consult with your local authority.

For the customers in the USA and Canada
DISPOSAL OF NICKEL METAL HYDRIDE BATTERY.
NICKEL METAL HYDRIDE BATTERY. DISPOSE OF PROPERLY.
You can return your unwanted nickel metal hydride batteries to your nearest Sony Service Center or Factory Service Center.
Note: In some areas the disposal of nickel metal hydride batteries in household or business trash may be prohibited.
For the Sony Service Center nearest you call 1-800-222-SONY (United States only)
For the Sony Factory Service Center nearest you call 416-499-SONY (Canada only)
Caution: Do not handle damaged or leaking nickel metal hydride battery.

For the customers in the USA and Canada
This mark is available in the USA and Canada only
RECYCLING NICKEL-Cadmium BATTERIES
Nickel-Cadmium batteries are recyclable. You can help preserve our environment by returning your unwanted batteries to your nearest point for collection, recycling or proper disposal.
Note: In some areas the disposal of nickel-cadmium batteries in household or business trash may be prohibited.
RBRC (Rechargeable Battery Recycling Corporation) advises you about spent battery collection by the following phone number.
Call toll free number: 1-800-822-8837 (United States and Canada only)
Caution: Do not handle damaged or leaking nickel-cadmium batteries.

For the customers in the USA
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
You are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this equipment.

For the customers in Australia
The supply cord of the AC power adaptor cannot be replaced; if the cord is damaged, the AC power adaptor should be discarded.

The CE mark on the CD player is valid only for products marketed in the European Union.

Note
Use only the supplied remote control. You cannot operate this CD player with the remote control supplied with other CD players.
Using the carrying case
You can carry your player and its battery case together using the supplied carrying case. Insert them into the proper places in the case as illustrated below.
You can also use rechargeable batteries, dry batteries and a car battery as a power source.

1. **Connect your CD player.**

   1. Connect the AC power adaptor.
   2. Connect the headphones/earphones with remote control.

**For models supplied with the AC plug adaptor**

If the AC power adaptor does not fit the AC outlet, use the AC plug adaptor.

**For models supplied with the remote control.**

- Connect the plug of the headphones/earphones to the remote control.
- Connect the headphones/earphones to the remote control firmly. A loose connection may cause noise during playback.

2. **Insert a CD.**

   1. Slide OPEN to open the CD player lid.
   2. Place the CD on the tray and close the lid.
3. **Play a CD.**

![Remote Control Diagram]

1. **Press ▶️.**
2. **Adjust the volume by pressing VOL + or −.**

*1 Automatic Music Sensor

*2 These operations can be done during both play and pause.
About the display

- When you turn the rotary control toward ▶/▶▶ or ◀ ◀ ◀ (press ▶▶ for the CD player) after changing the CD or turning off and on the player, the total number of tracks in the CD and total playing time appear for about two seconds.
- During play, the track number and the elapsed playing time of the current track appear.
- Between tracks, the time to the beginning of the next track appears with the “–” indication.
- During pause, the elapsed playing time flashes.

If the volume level does not increase

Is AVLS set to “LIMIT”? Set AVLS to “NORM.” For details, see “Protecting your hearing (AVLS).”

Removing the CD

Remove the CD while pressing the pivot in the center of the tray.
You can enjoy various ways of playback using the PLAY MODE button and the RPT (repeat)/ENT (enter) button.

**PLAY MODE button**
Each time you press the button, you can change the playback mode.

- No indication (Normal play)
- “1” (Play a single track)
- “SHUF” (Play tracks in random order)
- “PGM” (Play tracks in your favorite order)

**RPT/ENT button**

- **RPT (repeat)**
  You can repeat play that is selected using PLAY MODE.

- **ENT (enter)**
  You can select tracks for PGM play mode.
Playing tracks repeatedly (Repeat play)

You can play tracks repeatedly in normal, single, shuffle and PGM play modes.

During playback, press RPT/ENT.

Note on \(\ll/\gg\)

During Repeat play, you can locate the first track after the last track by turning the rotary control toward \(\gg/\gg\) repeatedly. You can also locate the last track after first track by turning the rotary control toward \(\ll/\ll\) repeatedly.

Playing a single track (Single play)

During playback, press PLAY MODE repeatedly until “1” appears.

Playing tracks in random order (Shuffle play)

During playback, press PLAY MODE repeatedly until “SHUF” appears.
Playing tracks in your favorite order (PGM play)

You can program the CD player to play up to 64 tracks in your favorite order.

1 During playback, press PLAY MODE repeatedly until “PGM” appears.

2 Turn the rotary control toward ▶/▶ or ◀◀ to select a track.

3 Press RPT/ENT to enter the selected track.
   “00” appears and the playing order increases by one.

4 Repeat steps 2 and 3 to select the tracks in your favorite order.

5 Press RPT/ENT until the PGM play starts.

To check the program
During programming:
   Press RPT/ENT repeatedly before step 5.
During the PGM play:
   Press PLAY MODE repeatedly until “PGM” flashes, then press RPT/ENT.
   Each time you press RPT/ENT, the track number appears.

Notes
• When you finish entering the 64th track in step 3, the first selected track appears in the display.
• If you select more than 64 tracks, the first selected tracks are erased.
Available features

G-PROTECTION function

The G-PROTECTION function has been developed to provide excellent protection against sound skipping while jogging. When you set the G-PRO switch on your CD player to “2,” the G-PROTECTION function will be enhanced compared to “1.” To walk with the CD player and enjoy high quality CD sound using the G-PROTECTION function, set the G-PRO switch to “1.” While taking harder exercise, it is recommended that you set it to “2.”

Set G-PRO (under the lid) to “1” or “2.”

Note

Sound may skip if:
- the CD player receives stronger continuous shock than expected or
- a dirty or scratched CD is played.

Displaying CD text information

When you play a CD containing CD text information, the track name, disc name, artist name, etc., appear in the display.

Display on the remote control

* While the CD player is reading the information on the CD, “READING” appears.

Press DISPLAY.

Each time you press the button, the display changes as follows:

<table>
<thead>
<tr>
<th>Press DISPLAY once.</th>
<th>Press DISPLAY twice.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Track number and name of the current track</td>
<td>The number of tracks left** and disc name/artist name</td>
</tr>
<tr>
<td>Track number and name of the current track/artist name</td>
<td></td>
</tr>
</tbody>
</table>

** Not displayed during single play, shuffle play or PGM play.

Note

CD text displayed on this CD player is in English only.
Checking the remaining time on the CD and the number of tracks left

You can check the remaining time on the CD and the number of tracks left using DISPLAY. When playing a CD containing CD text information, you cannot use this function.

Press DISPLAY.
Each time you press the button, the display changes as follows.

- **Normal play**: Track number and elapsed playing time
- Press DISPLAY once: Track number and remaining time on the current track
- Press DISPLAY twice: The number of tracks left* and remaining time on the CD*

* Not displayed during Single play, Shuffle play or PGM play.

Emphasizing the bass sound (SOUND)

You can emphasize the bass-boosted sound.

Press SOUND to select “BASS 1” or “BASS 2.”

- No indication (Normal play)
  - ↓ BASS 1
  - ↓ BASS 2

The selected sound mode is displayed.

“BASS 2” enhances the bass sound more than “BASS 1.”

Note
If the sound is distorted when using the SOUND function, turn down the volume.
Locking the controls
(HOLD)

You can lock the controls on your CD player to prevent accidental button presses.

Slide HOLD in the direction of the arrow.

CD player

Remote control

CHG/HOLD lamp flashes while the HOLD function is working.

Protecting your hearing
(AVLS)

The AVLS (Automatic Volume Limiter System) function keeps down the maximum volume to protect your hearing.

Set AVLS to “LIMIT.”

Appears when the volume is turned up and beyond a certain level.

To turn off the AVLS function
Set AVLS to “NORM.”

You can use the HOLD function with both the CD player and remote control. You can still operate your CD player using the remote control when HOLD on the remote control is set to off.

To unlock the controls
Slide HOLD in the opposite direction of the arrow.

Note
Even if the HOLD function is working, “HOLD” will not appear in the display of the remote control.
Turning off the operation beep sound

You can turn off the beep sound that is heard from your headphones/earphones when you operate your CD player.

1 Remove the power source (AC power adaptor, rechargeable batteries or dry batteries) from the CD player.

2 Connect the power source while pressing ■ (■/CHG for the CD player).

To turn on the beep sound
Remove the power source and then connect the power source without pressing ■ or ■/CHG.

Turning off the LCD’s backlight

While you are using the rechargeable batteries or dry batteries, the LCD’s backlight turns on for about 5 seconds every time you press a button. However, you can turn off the backlight to save the battery power.

1 Remove the rechargeable batteries or dry batteries from the CD player.

2 Insert the batteries while pressing PLAY MODE.

To turn on the LCD’s backlight
Remove the batteries and then insert the batteries without pressing PLAY MODE.

About the LCD’s backlight
The LCD’s backlight is always turned on when using the AC power adaptor or car battery.
Connecting a stereo system

You can listen to CDs through a stereo system and record CDs on a cassette tape and a MiniDisc. For details, see the instruction manual that comes with the connected device.

Be sure to turn off all connected devices before making connections.

Notes

- Before you play a CD, turn down the volume of the connected device to avoid damaging the connected speakers.
- Use the AC power adaptor for recording. If you use the rechargeable batteries or dry batteries as a power source, batteries may become completely depleted during recording.
- Adjust the volume properly on the connected device so that the sound will not be distorted.

When using the connecting cord

If the sound is distorted, connect the device to the \( \bigcirc \) jack.

When using the optical digital connecting cord

To record a CD on a MiniDisc, DAT, etc., make sure that the CD player is in pause before operating the recording procedures.

About the G-PROTECTION and SOUND functions when using the connecting cord or optical digital connecting cord

- To record high quality CD sound, set the G-PRO switch to “1.”
- The SOUND function works only on the output sound from the \( \bigcirc \) jack and not work on the output sound from the LINE OUT (OPTICAL) jack.

MiniDisc recorder, DAT deck, etc.

Stereo system, cassette recorder, radio cassette recorder, etc.
Connecting a stereo system

**Using your CD player in a car**

You can use your CD player in a car by connecting it to the car cassette deck.

You cannot use the car mount plate for this CD player.

When you use your CD player in a car, install it securely in a location that does not interfere with your driving.

**Optional car accessory needed**

To connect your CD player to a car cassette deck, you need the following car accessories in “Accessories (supplied/optional)”:  
- Car battery cord, and  
- Car connecting pack*

For details, see the instruction manuals that come with the optional accessories.

* Noise may be heard if you use an optional connecting cord. It is recommended that you use a Sony car connecting pack to reduce noise.

**Switched ignition function (when using the car battery cord)**

With this feature, your CD player stops automatically when you turn off the car engine (turn off the ignition key) even if the batteries are inserted in the CD player. This function is invalid depending on the car models.

**Note**

Use only the car battery cord listed in “Accessories (supplied/optional).” If you use any other car battery cord, a heat, smoke or malfunction may occur.

**About Joint Text (CD text copying function)**

The Joint Text function allows you to copy the disc and track names that are on a CD containing CD text information. By connecting a Sony MD Walkman (MZ-R90/R91), which supports Joint Text, to this CD player, you can copy the CD text onto an MD during recording. You must use an optical digital connecting cable (POC-5B or other model, not supplied) and the RK-TXT1 CD text connecting cable (not supplied) to make the connections.

For details, refer to the operating instructions of the MD Walkman.
Connecting a power source

You can use the following power sources:
• Rechargeable batteries
• AC power adaptor (see “Playing a CD”)
• LR6 (size AA) alkaline batteries (external battery case)

For the battery life and charging time of the rechargeable batteries, see “Specifications.”

Using the rechargeable batteries

Charge the rechargeable batteries before using them for the first time. You can use only the following rechargeable batteries for your CD player.
• NH-14WM
• NC-6WM

1 Open the battery compartment lid inside your CD player.

2 Insert two rechargeable batteries by matching the + to the diagram in the battery compartment and close the lid until it clicks into place.

Put the end of the ribbon inside.

3 Connect the AC power adaptor to the EXT BATT/DC IN 4.5 V jack of your CD player and an AC outlet, then press ■/CHG to start charging.

If the AC power adaptor does not fit the AC outlet, use the AC plug adaptor.

The CD player charges the batteries. The indicator sections of 在 the display of the remote control light up in succession and the CHG/HOLD lamp lights up.
When the batteries are completely charged, all indications in the display disappear and the CHG/HOLD lamp goes off.
If you press ■/CHG after the charge has already been completed, the 在 indicator flashes and “FULL” appears in the display.

4 Disconnect the AC power adaptor.

(Continued)
Using the rechargeable batteries

To remove the rechargeable batteries
Pull the ribbon.

When to charge the rechargeable batteries
You can check the remaining power of the batteries in the display.

- Battery power is full.
- Battery power is getting low.
- Battery power is low.
- Lobatt* Batteries are depleted.
  * Beep sounds.

When to replace the rechargeable batteries
If the battery life becomes shorter by about half, replace the batteries with new rechargeable batteries.

Note on the rechargeable batteries
If the battery is new or has not been used for a long time, it may not be charged completely until you charge and discharge it several times.

Note on carrying the rechargeable batteries
Use the supplied battery carrying case to prevent unexpected heat. If the rechargeable batteries and the metallic objects are contacted, heat or fire may occur due to a short circuit.

Notes
- The indicator sections of roughly show the remaining battery power. One section does not always indicate one-fourth of the battery power.
- Depending on operating conditions, the indicator sections of may increase or decrease.
Using the dry batteries

Make sure to use the supplied external battery case. Use only the following dry battery type for your CD player:
- LR6 (size AA) alkaline batteries

1 Unlock the cap of the external battery case, and insert two LR6 (size AA) alkaline batteries by matching the + to the diagram outside the external battery case and close the cap of the external battery case.

![Diagram of external battery case]

2 Connect the external battery case to the CD player.

![Diagram of CD player with external battery case]

With the ▲ side down to EXT BATT/DC IN 4.5 V

When to replace the batteries

You can check the remaining power of the batteries in the display.

- Battery power is full.
- Battery power is getting low.
- Battery power is low.
- Lobatt* Batteries are depleted.
  * Beep sounds.

When the batteries are depleted, replace both batteries with new ones. The batteries in the CD player and external battery case are discharged simultaneously.

Notes
- Be sure to remove the AC power adaptor when attaching the external battery case.
- When using the rechargeable batteries and dry batteries together to extend power, use fully charged rechargeable batteries and new dry batteries.
Notes on the power source

Disconnect all power sources when the CD player is not used.

On AC power adaptor

• Use only the AC power adaptor supplied or recommended in “Accessories (supplied/optional).” Do not use any other AC power adaptor. It may cause a malfunction.

   Polarity of the plug

   ![Polarity of the plug](image)

   • When disconnecting the AC power adaptor from the AC outlet, grasp the adaptor itself. Do not pull it by the cord.
   • Do not touch the AC power adaptor with wet hands.

On rechargeable batteries and dry batteries

• Do not charge the dry batteries.
• Do not throw the batteries into fire.
• Do not carry the batteries with coins or other metallic objects. It can generate heat if the positive and negative terminals of the battery are accidentally contacted by a metallic object.
• Do not mix rechargeable batteries with dry batteries.
• Do not mix new batteries with old ones.
• Do not use different types of batteries together.
• When the batteries are not to be used for a long time, remove them.
• If battery leakage occurs, wipe off any deposit in the battery compartment, and install new batteries. In case the deposit adheres to you, wash it off thoroughly.
Precautions

On safety
• Should any solid objects or liquid fall into the CD player, unplug it and have it checked by qualified personnel before operating it any further.
• Do not put any foreign objects in the DC IN 4.5 V (external power input) jack.

On the CD player
• Keep the lens on the CD player clean and do not touch it. If you do so, the lens may be damaged and the CD player will not operate properly.
• Do not put any heavy object on top of the CD player. The CD player and the CD may be damaged.
• Do not leave the CD player in a location near heat sources, or in a place subject to direct sunlight, excessive dust or sand, moisture, rain, mechanical shock, unlevelled surface, or in a car with its windows closed.
• If the CD player causes interference to the radio or television reception, turn off the CD player or move it away from the radio or television.

On handling CDs
• To keep the CD clean, handle it by its edge. Do not touch the surface.
• Do not stick paper or tape onto the CD.

Not these ways

• Do not expose the CD to direct sunlight or heat sources such as hot air ducts. Do not leave the CD in a car parked under direct sunlight.

On headphones/earphones

Road safety
Do not use headphones/earphones while driving, cycling, or operating any motorized vehicle. It may create a traffic hazard and is illegal in some areas. It can also be potentially dangerous to play your headsets at high volume while walking, especially at pedestrian crossings. You should exercise extreme caution or discontinue use in potentially hazardous situations.

Preventing hearing damage
Avoid using headphones/earphones at high volume. Hearing experts advise against continuous, loud and extended play. If you experience a ringing in your ears, reduce volume or discontinue use.

Consideration for others
Keep the volume at a moderate level. This will allow you to hear outside sounds and to be considerate to the people around you.

Maintenance

To clean the casing
Use a soft cloth slightly moistened in water or a mild detergent solution. Do not use alcohol, benzine or thinner.
**Troubleshooting**

Should any problem persist after you have checked these symptoms, consult your nearest Sony dealer.
