Congratulations! Your new BRAVIA® TV opens the door to the “Stunning HD Experience.” This guide will explain how to get the most from your new High Definition TV. Please take these steps before you power up your BRAVIA:

- Register online at: http://productregistration.sony.com (from U.S.A.)
- http://www.sony.ca/registration (from Canada)
- Make sure you’ve removed all accessories contents from packaging.
- Install 2 AAA batteries (supplied separately) in your remote control.
- Determine whether you will mount your TV on a wall or place it on the Table-Top Stand.
- Give your TV 2 ½ inches (6 cm) of space behind it to properly ventilate.

You must get HD programming to experience the stunning detail of HDTV.

- The quality of the image you see on your BRAVIA can only be as high as the quality of the signal it is receiving.
- Contact your cable, satellite or HD Service provider to upgrade your service to HD.
- Receive over-the-air HD broadcasts with an HD-quality antenna (www.antennaweb.org) and discover the wealth of entertainment now available on super high-resolution Blu-ray Disc.
- To learn more about HDTV, visit: U.S.A.: http://www.sony.com/HDTV
  Canada: http://www.sony.ca/hdtv

Connecting to Your TV

Your BRAVIA TV must be properly connected to components such as sound system and cable or satellite box.

- Turn off and unplug all components before making connections.
- Do not turn on the TV until connection setup is completed.
- See reverse side of this poster for sample connection diagrams.

1 Your New BRAVIA® LCD HDTV

2 Running Initial Setup

Initial Setup instructions are displayed on the screen when your BRAVIA is powered on for the first time.

1. Select the language for the OSD (on screen display).
2. Choose your viewing country.
3. Select the type of use.
4. Connect either cable or antenna to your TV. You can connect both using an A-B RF switch (not supplied).
   - If you are not using the CABLE/ANTENNA connection to TV (for example, if using a cable or satellite box), you can cancel the Auto Program by selecting Cancel.
5. Channels of the signal source (cable or antenna) connected in step 4 are automatically scanned and detected.
6. Set the current date and time.
7. If your BRAVIA is connected to a wired LAN or wireless LAN, make the network setting.
8. Select Automatic Software Download. If your BRAVIA is connected to a network, it is recommended to set to automatically download future available services.

To Do List

When the Initial Setup is completed, consider carrying out these items:

- Set Closed Captions (CC)
- Set Parental Lock
- Show/Hide Channels
- Manage Inputs (AV Setup)
- Set Speakers

For details, refer to your BRAVIA Operating Instructions Manual.

3 Watching Your TV

Select Your Content Source

Whether you are watching cable, satellite or broadcast TV, playing a VCR, DVD or Blu-ray Disc; or connecting to your PC or other equipment, you need to choose the correct input using your remote control.

- Press the INPUT button repeatedly until your selection is highlighted on-screen.

Adjust Screen Shape and Aspect Ratio

High Definition and Standard Definition signals are transmitted with different aspect ratios (the width-to-height ratio of the image).

The 16:9 aspect ratio (common to most HD signals) looks perfect on your BRAVIA.

- The boxy 4:3 aspect ratio (common to most SD signals) must be adjusted to fill the screen.

Customize Sound and Picture Quality

You can choose optimum sound and picture settings to match the content you are displaying on your TV.

- Press the remote control’s HOME button, select Settings, then select the Picture and Sound settings to adjust the picture and sound quality of your content.

Refer to your Operating Instructions Manual for more information on adjusting or customizing your settings.
**Basic Connection with HD Cable Box**

- Rear of TV
- SAT (dish)
- HD Cable Box or HD Satellite Receiver
- Splitter
- A/V Receiver
- Home Theater System

**Basic Connection with SD Cable Box**

- Rear of TV
- SAT (dish)
- SD Cable Box or SD Satellite Receiver
- Splitter
- A/V Receiver
- Home Theater System

**Required Cable Types for Connection**

- Coaxial
- HDMI
- Composite
- Mini-Pin-to-Audio (L/R)
- Digital Optical Audio
- MHL

**Notes on Connection:**

- Your TV is equipped with multiple HDMI inputs; connect your incoming signal source (HD Cable Box, HD Satellite Box, or DVD) with HDMI/MHL or component video for the best possible picture quality.

**Connecting a PC to Your BRAVIA® TV**

- Press PC’s FUNCTION Key + Select Output to transmit to TV.
- Refer to your BRAVIA® Operating Instructions Manual for more information.

**HD BRAVIA® Sync™ Basic Connection**

- Rear of TV
- Side Panel
- A/V Receiver
- MHL Device
- Blu-ray Disc/DVD
- SAT (dish)

**Built-in Wireless LAN Connection and Setup**

- Wireless Network can be set during initial setup.
- Wireless Setup security type differs depending on the wireless router (access point) used.
- Follow the chart below and select the appropriate menu.

**Security type of your Wireless router (access point)**

- WPS (PIN) Select
- WPS (Push Button) Select
- SSID with Security Key (WEP/WPA (**) Select
- SSID without Security Key Select

- Before scanning, be sure to make the wireless router (access point) settings (SSID/Key).

*Signifies a BRAVIA Sync capable device.
*The optical connection is only needed for A/V receivers that do not support ARC (Audio Return Channel).
