1-800-222-SONY (7669)    1-877-899-SONY (7669)
8:00 AM - 10:00 PM (EST) Mon - Fri 8:00 AM - 6:00 PM (Eastern)
10:30 AM - 7:15 PM (EST) Sat - Sun 8:00 AM - 5:00 PM (Western)

Sony will work to resolve your questions more quickly than your retailer or place of purchase.

Please Do Not Return the Product to the Store
**WARNING**
To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.

This symbol is intended to alert the user to the presence of uninsulated “dangerous voltage” within the product’s enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

This symbol is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

The apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.

**CAUTION**
To prevent electric shock, do not use this polarized AC plug with an extension cord, receptacle or other outlet unless the blades can be fully inserted to prevent blade exposure.

**Note on Caption Vision**
This TV provides display of TV closed captioning in accordance with §15.119 of the FCC rules.

---

**NOTIFICATION**
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Pursuant to FCC regulations, you are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this equipment.

**For Customers in Canada**
This Class B digital apparatus complies with Canadian ICES-003.

**Safety**
- Operate the TV only on 120-240 V AC.
- Use the AC power cord specified by Sony and suitable for the voltage where you use it.
- The plug is designed, for safety purposes, to fit into the wall outlet only one way. If you are unable to insert the plug fully into the outlet, contact your dealer.
- If any liquid or solid object should fall inside the cabinet, unplug the TV immediately and have it checked by qualified service personnel before operating it further.
- If you will not be using the TV for several days, disconnect the power by pulling the plug itself. Never pull on the cord.
- For details concerning safety precautions, see “Important Safety Instructions” on page 4.

**Installing**
- The TV should be installed near an easily accessible power outlet.
- To prevent internal heat buildup, do not block the ventilation openings.
- Do not install the TV in a hot or humid place, or in a place subject to excessive dust or mechanical vibration.
- Avoid operating the TV at temperatures below 41°F (5°C).
- If the TV is transported directly from a cold to a warm location, or if the room temperature changes suddenly, the picture may be blurred or show poor color due to moisture condensation. In this case, please wait a few hours to let the moisture evaporate before turning on the TV.
- To obtain the best picture, do not expose the screen to direct illumination or direct sunlight. It is recommended to use spot lighting directed down from the ceiling or to cover the windows that face the screen with opaque drapery. It is desirable to install the TV in a room where the floor and walls are not of a reflective material.

**CAUTION**
Use the following Sony appliance(s) only with the following WALL-MOUNT BRACKET.

<table>
<thead>
<tr>
<th>Sony Appliance Model No.</th>
<th>Sony Wall-Mount Bracket Model No.</th>
</tr>
</thead>
<tbody>
<tr>
<td>KDL-40V2500</td>
<td>SU-WL51</td>
</tr>
<tr>
<td>KDL-46V2500</td>
<td></td>
</tr>
</tbody>
</table>

Use with other WALL-MOUNT BRACKET may cause instability and possibly result in injury.

**To Customers**
Sufficient expertise is required for installing the specified product. Be sure to subcontract the installation to Sony dealers or licensed contractors and pay adequate attention to safety during the installation.

**For Customers in the United States**
This product contains mercury. Disposal of this product may be regulated if sold in the United States. For disposal or recycling information, please contact your local authorities or the Electronics Industries Alliance (http://www.eiae.org).

**Note**
This television includes a QAM demodulator which should allow you to receive unscrambled digital cable television programming via subscription service to a cable service provider. Availability of digital cable television programming in your area depends on the type of programming and signal provided by your cable service provider.
**Trademark Information**

TruSurround XT, SRS and ( ) symbol are trademarks of SRS Labs, Inc. TruSurround XT technology is incorporated under license from SRS Labs, Inc.

Manufactured under license from BBE Sound, Inc. Licensed by BBE Sound, Inc. under one or more of the following US patents: 5510752, 5736897. BBE and BBE symbol are registered trademarks of BBE Sound, Inc.

Macintosh is a trademark licensed to Apple Computer, Inc., registered in the U.S.A and other countries.

“BRAVIA” and BRAVIA are trademarks of Sony Corporation.

This TV incorporates High-Definition Multimedia Interface (HDMI™) technology. HDMI, the HDMI logo and High-Definition Multimedia Interface are trademarks or registered trademarks of HDMI Licensing LLC.

Manufactured under license from Dolby Laboratories. “Dolby” and the double-D symbol are trademarks of Dolby Laboratories.

**Important Safety Instructions**

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
USE

For the TV with a three-wire grounding type AC power cord plug (Class 1 unit)

This TV must be connected to an AC power socket outlet with a protective earthing connection.

AC power cord

If you damage the AC power cord, it may result in a fire or an electric shock. If the AC power cord is damaged, stop using it and ask your dealer or Sony service center to exchange it.

Do not place the TV where the power cord is subject to wear or abuse.
Do not pinch, bend, or twist the cord excessively. The core lines may be bared and cut, and cause a short-circuit, resulting in a fire or an electric shock.
Do not convert or damage the power cord.
Do not allow anything to rest on or roll over the power cord.
Do not pull the power cord.
Do not move the TV with the power cord plugged in.
Keep the power cord away from heat sources.
Be sure to grasp the plug when disconnecting the power cord.

Wall outlet

Do not use a poor fitting outlet.
Insert the plug fully into the outlet. If it is loose, it may cause arcing and result in a fire. Contact your electrician to have the outlet changed.

Wiring

For your safety, unplug the AC power cord when wiring cables.

Cable wiring

Take care not to catch your feet on the cables. It may damage the TV.

Electric shock

Do not touch the AC power cord or the TV with a wet hand. If you plug/unplug the AC power cord from the TV with a wet hand, it may cause electric shock.

Lightning

For added protection for this TV during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna. This will prevent damage to the receiver due to lightning and power line surges.

ANTENNA

Outdoor Antenna Grounding

If an outdoor antenna is installed, follow the precautions below. An outdoor antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can come in contact with such power lines or circuits.

WHEN INSTALLING AN OUTDOOR ANTENNA SYSTEM, EXTREME CARE SHOULD BE TAKEN TO KEEP FROM CONTACTING SUCH POWER LINES OR CIRCUITS AS CONTACT WITH THEM IS ALMOST INVIARABLY FATAL.

Be sure the antenna system is grounded so as to provide some protection against voltage surges and built-up static charges.

Section 810 of the National Electrical Code (NEC) in the USA and Section 54 of the Canadian Electrical Code in Canada provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna discharge unit, connection to grounding electrodes, and requirements for the grounding electrode.

Antenna Grounding According to the National Electrical Code, ANSI/NFPA 70

BATTERIES

Do not dispose of batteries in a fire.
Do not short circuit, disassemble or overheat the batteries.
Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.

Disposal of used batteries

To preserve our environment, dispose of used batteries according to your local laws or regulations.

CLEANING

Clean the AC power plug regularly.
If the plug is covered with dust and it picks up moisture, its insulation may deteriorate and result in a fire. Unplug the AC power plug and clean it regularly.

Unplug the AC power cord when cleaning this TV. If not, it may result in electric shock.
Clean the cabinet of the TV with a dry soft cloth. To remove dust from the screen, wipe it gently with a soft cloth. Stubborn stains may be removed with a cloth slightly dampened with a solution of mild soap and warm water. Never use strong solvents such as thinner or benzine for cleaning.
If using a chemically pretreated cloth, please follow the instruction provided on the package.

MAGNETIC INFLUENCE

This TV contains a strong magnet in the speaker unit that generates a magnetic field. Keep any items susceptible to magnetic fields away from the speaker.

SOUND

If a snapping or popping sound from the TV is continuous or frequent while the TV is operating, unplug the TV and consult your dealer or service technician. It is normal for some TVs to make occasional snapping or popping sounds, particularly when being turned on or off.

(Continued)
VENTILATION

The slots and openings in the TV are provided for necessary ventilation. To ensure reliable operation of the TV, and to protect it from overheating, these slots and openings must never be blocked or covered. Unless proper ventilation is provided, the TV may gather dust and get dirty. For proper ventilation, observe the following:

- Do not install the TV face up or down or sideways.
- Do not install the TV turned over or upside down.
- Never cover the slots and openings with a cloth or other materials.

- Never block the slots and openings by placing the TV on a bed, sofa, rug or other similar surface.
- Never place the TV in a confined space, such as a bookcase or built-in cabinet, unless proper ventilation is provided.

When installing the TV on a wall, allow this much space:

- 30 cm (11 7/8 inches)
- 10 cm (4 inches)
- 10 cm (4 inches)
- 10 cm (4 inches)

When installing the TV using a stand, allow this much space:

- 30 cm (11 7/8 inches)
- 6 cm (2 3/8 inches)
- 10 cm (4 inches)
- 10 cm (4 inches)

Never install the TV as follows:

- Air circulation is blocked.

Objects and ventilation holes

Never push objects of any kind into the TV through the cabinet slots as they may touch dangerous voltage points or short out parts that could result in a fire or an electric shock. Never spill liquid of any kind on the TV.

Do not place any objects on the TV.

The TV shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the TV.

MOISTURE

Moisture and flammable objects

- Do not use power-line operated sets near water — for example, near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool, etc. It may result in a fire or an electric shock.

- Do not let this TV get wet. Never spill liquid of any kind on the TV. If any liquid or solid object does fall through, do not operate the TV. It may result in electric shock or damage to the TV. Have it checked immediately by qualified personnel.

- To prevent fire, keep flammable objects or open flame (e.g. candles) away from the TV.

CARRYING THE TV

Carry the TV in the specified manner

Carrying the TV requires at least two people.

If you carry the TV in a manner other than that specified and without the specified number of persons, it may drop and serious injury may result.

- Carry the TV with the specified number of people.
- Carry the TV holding the upper and bottom frames of the TV as illustrated.
- Hold the TV securely when carrying it. As the glass surface of the TV has a special coating, be careful to avoid touching the glass surface as much as possible.
- When transporting, do not subject the TV to shocks or vibration, or excessive force.
- When lifting or moving the TV, be sure to hold the panel firmly as illustrated. Place your palm directly under the panel, from the rear of the TV.
INSTALLATION
When installing or removing, using the Wall-Mount Bracket, be sure to use qualified contractors. Wall mount installation requires the use of a Wall-Mount Bracket. If not properly secured during installation or removal from the Wall-Mount Bracket, the TV may fall and cause serious injury. Please use a qualified contractor when installing or removing.

Placement for viewing
It is recommended to watch the TV at a distance of 3 - 7 times that of the screen height, and in moderate brightness. Watching the TV for too long or in a dark room may cause eye fatigue.

Optional wall mount
Observe the following when installing the TV using a wall-mount bracket. If the TV is not secured properly, it may fall and cause injury.
- Be sure to follow the operating instructions supplied with the wall-mount bracket when installing the TV.
- Be sure to attach the brackets supplied with the wall-mount bracket.
- Do not hang the TV from the ceiling. It may fall and cause serious injury.

Outdoor use
Do not install this TV outdoors. If the TV is exposed to rain, it may result in a fire or an electric shock. If the TV is exposed to direct sunlight, the TV may heat up and cause damage to the TV.

Vehicle
Do not install this TV in a vehicle. Bumping of the vehicle may cause the TV to fall down and cause injury.

Ship and vessel
Do not install this TV in a ship or vessel. If the TV is exposed to seawater, it may cause a fire or damage the TV.

Corrosion
If you use this TV near the seashore, salt may corrode metal parts of the TV and cause internal damage or fire. It may also shorten the life of the TV.

Oils
Do not install this TV in restaurants where oily vapors occur. Dust absorbing oil may enter and damage the TV.

Medical institution
Do not place this TV in a place where medical equipment is in use. It may cause a malfunction of medical instruments.

Preventing the TV from toppling over
Take measures to prevent the TV from toppling over and causing injury. To prevent the TV from toppling over, secure the TV to a wall or pillar.

Installing on a level surface
If you install the TV on an inclined surface, the TV may fall or drop and cause injury or damage.

Placing on a stable surface
If you place the TV on an unstable surface, the TV may fall and cause injury or damage.

Fall
Do not hang anything on the TV. The TV may fall from the stand or wall-mount, causing damage or serious injury.

VOLUME ADJUSTMENT
- Adjust the volume so as not to trouble your neighbors. Sound carries very easily at night. Therefore, closing the windows or using headphones is suggested.
- When using headphones, adjust the volume so as to avoid excessive levels, as hearing damage may result.

LCD SCREEN
- Although the LCD screen is made with high-precision technology and has effective pixels of 99.99% or more, black dots or bright points of light (red, blue, or green) may appear constantly on the LCD screen. This is a structural property of the LCD panel and is not a malfunction.
- Do not expose the LCD screen surface to direct sun light. Doing so may damage the LCD panel.
- Do not push or scratch the LCD screen, or place objects on top of the TV. The image may be uneven or the LCD panel may be damaged.
- If the TV is used in a cold place, a smear may occur in the picture or the picture may become dark. This does not indicate a failure. These phenomenon improve as the temperature rises.
- Ghosting may occur when still pictures are displayed continuously. It should disappear after a few moments.
- The screen and cabinet get warm when the TV is in use. This is not a malfunction.
- Avoid spraying insect repellent with volatile material on the screen.
- Avoid prolonged contact with rubber or plastic made material.

Broken pieces
Do not throw anything at the TV. The screen glass may break by the impact and cause serious injury.

Handling of broken glass and liquid crystal leakage
If the LCD panel gets damaged, crystalline liquid leakage may occur, or scattered broken glass may result. Do not touch broken glass or crystalline liquid (which is toxic), with bare hands as cuts or poisoning/skin irritation may occur. Also, do not let glass fragments or leaked crystalline liquid get into your eyes or mouth. Should either contact your eyes or mouth, rinse the contacted area thoroughly with water and consult your doctor.

(Continued)
SERVICING

Damage requiring service
If the surface of the TV cracks, do not touch the TV until you unplug the AC power cord.
Otherwise electric shock may result.

Servicing
Do not attempt to service the TV yourself since opening the cabinet may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.

Replacement parts
When replacement parts are required, be sure the service technician certifies in writing that he/she has used replacement parts specified by the manufacturer that have the same characteristics as the original parts.
Unauthorized substitutions may result in a fire, an electric shock or other hazards.

Safety check
Upon completion of any service or repairs to the TV, ask the service technician to perform routine safety checks (as specified by the manufacturer) to determine that the TV is in safe operating condition, and to so certify.
Should the TV not be repairable, ask a qualified service technician to dispose of the TV.

DISPOSAL OF THE TV
☐ Do not dispose of the TV with general household waste.
☐ The LCD contains a small amount of liquid crystal. The fluorescent tube used in this display also contains mercury. Follow your local ordinances and regulations for disposal.

Welcome to the World of BRAVIA™

Thank you for purchasing this Sony LCD Digital Color Television. This manual is for models KDL-40V2500 and KDL-46V2500. The packing box contains accessories that are listed on page 44.

For optimum picture performance, your new BRAVIA TV is capable of receiving high definition programming through its integrated tuner. It is also capable of receiving HDTV content from a cable or satellite box via the video inputs (HDMI and Y/Pb/Pk component video; see page 14).

Connecting the TV

To display clear, crisp pictures, your TV must be connected properly. To properly connect your TV, follow the basic connections provided in this section. Advanced connection examples are provided in the separate Quick Setup Guide accompanied with your TV. The Quick Setup Guide provides a variety of optional equipment connection diagrams.

It is strongly recommended that you connect the antenna/cable input using the supplied 75-ohm coaxial cable to receive optimum picture quality. A 300-ohm twin lead cable can be easily affected by radio frequency, resulting in signal deterioration.

When the antenna/cable connection is done, you must perform an Initial Setup so your TV will create a list of channels you can view (see page 18). After you can receive and view programming you should select the proper Wide Mode setting to display the picture in your preferred aspect ratio. See “Changing the Wide Screen Mode” on pages 21 and 29.

Cable System and/or VHF/UHF Antenna System

Connecting a cable system or an external VHF/UHF antenna to the VHF/UHF input will allow you to enjoy high definition and standard definition digital programming (if available in your area) along with the standard definition analog programming.

This TV is capable of receiving unscrambled digital programming for both cable (QAM and 8VSB) and external VHF/UHF antenna (ATSC).

Cable or VHF/UHF (or VHF only)
Cable and VHF/UHF (or VHF only)

If you want to watch both cable and antenna (over-the-air) programming, you will need to use an optional A-B RF Switch (not supplied) to switch between the cable and over-the-air antenna programming, as shown.

A/B RF Switch

Be sure to set the Cable setting option to Cable On or Cable Off in the Setup settings for the type of input signal you choose (see page 34).

HD Cable Box/
HD Satellite Box

You can also enjoy high definition programming by subscribing to high definition cable service or high definition satellite service. For the best possible picture, make sure you connect these components to your TV via the HDMI or component video (with audio) input on the back of your TV.

Component video (Y, Pb, Pr) or HDMI connection is necessary to view 480i, 480p, 720p, 1080i, and 1080p (HDMI connection) formats. Note that this TV displays all format types of picture in its native resolution of 1,920 dots × 1,080 lines.

When Connecting to Optional Equipment

Left side

Rear

1 VIDEO 2 IN S VIDEO
Connects to the S VIDEO output jack on your camcorder or other video equipment that has S VIDEO. Provides better picture quality than composite video (2). (See Auto YC on page 33.)

2 VIDEO 2 IN VIDEO/ L (MONO)- R AUDIO
Connect to the composite video and audio output jacks on your camcorder or other video equipment such as video game equipment.

If you have mono equipment, connect its audio output jack to the TV's L (MONO) audio input jack.

3 Headphones jack
Connects to your headphones. If your headphones do not match the jack, use a suitable plug adapter (not supplied).

4 PC IN 8 (RGB/AUDIO)
Connect to a personal computer's video output connector using HD15-HD15 cable (analog RGB, supplied). Can also be connected to other analog RGB devices. See “PC Input Signal Reference Chart” on page 43 for the signals that can be displayed.

For some Apple Macintosh computers, it may be necessary to use an adapter (not supplied). If this is the case, connect the adapter to the computer before connecting the HD15-HD15 cable.

If the picture is noisy, flickering or not clear, adjust Phase and Pitch of the PC Settings on page 36.

Item | Description
--- | ---
1 VIDEO 2 IN S VIDEO | Connects to the S VIDEO output jack on your camcorder or other video equipment that has S VIDEO. Provides better picture quality than composite video (2). (See Auto YC on page 33.)
2 VIDEO 2 IN VIDEO/ L (MONO)- R AUDIO | Connect to the composite video and audio output jacks on your camcorder or other video equipment such as video game equipment.
3 Headphones jack | Connects to your headphones. If your headphones do not match the jack, use a suitable plug adapter (not supplied).
4 PC IN 8 (RGB/AUDIO) | Connect to a personal computer's video output connector using HD15-HD15 cable (analog RGB, supplied). Can also be connected to other analog RGB devices. See “PC Input Signal Reference Chart” on page 43 for the signals that can be displayed.

(Continued)
**HDMI IN 6**  
HDMI (High-Definition Multimedia Interface) provides an uncompressed, all-digital audio/video interface between this TV and any HDMI-equipped audio/video equipment, such as a set-top box, DVD player, and A/V receiver. HDMI supports enhanced, or high-definition video, plus digital audio.

**HDMI IN 7**  
If the equipment has a DVI jack and not an HDMI jack, connect the DVI jack to the HDMI IN 6 (with HDMI-to-DVI cable or adapter) jack, and connect the audio jack to the AUDIO IN(L/R) jacks of HDMI IN 6. (DVI connector is for video signals only.)

---

**Item** | **Description**
--- | ---
5 HDMI IN 6 HDMI/ R-AUDIO-L | HDMI (High-Definition Multimedia Interface) provides an uncompressed, all-digital audio/video interface between this TV and any HDMI-equipped audio/video equipment, such as a set-top box, DVD player, and A/V receiver. HDMI supports enhanced, or high-definition video, plus digital audio.
6 HDMI IN 7 HDMI | If the equipment has a DVI jack and not an HDMI jack, connect the DVI jack to the HDMI IN 6 (with HDMI-to-DVI cable or adapter) jack, and connect the audio jack to the AUDIO IN(L/R) jacks of HDMI IN 6. (DVI connector is for video signals only.)

---

7 VIDEO IN 1 S VIDEO | Connects to the S VIDEO output jack of your VCR or other video equipment that has S VIDEO. S VIDEO provides better picture quality than composite video.
8 VIDEO IN 1/3 VIDEO/ L(MONO)-AUDIO-R | Connect to the composite video and audio output jacks on your A/V equipment such as a VCR or other video equipment. A third composite video and audio (VIDEO 2) is located on the left side of the TV.
9 AUDIO OUT (VAR/FIX) | Connect to the left and right audio input jacks of your audio or video equipment. You can use these outputs to listen to your TV’s audio through your stereo system.
10 DIGITAL OUT (OPTICAL) | Connects to the optical audio input of a digital audio equipment that is PCM/Dolby* digital compatible. (DIGITAL OUT (OPTICAL) is only available for digital channels.)
11 HD/DVD IN 4/5 (1080i/720p/ 480p/480i)/ L-AUDIO-R | Connect to your equipment’s component video (YPbPr) and audio (L/R) jacks. Component video provides better picture quality than the S VIDEO or the composite video connections.
12 AC IN | Connects the supplied AC power cord.
13 VHF/UHF | RF input that connects to your Cable or VHF/UHF antenna.

---

Installing the TV

Preventing the TV from Toppling Over

Attaching the Support Belt

1 Screw the support belt (supplied) to the TV stand with a wood screw (supplied).

2 Attach the support belt to the stand with the securing screw (supplied) using a coin, etc.

3 Adjust the length by pulling the support belt toward you while holding the stand.

Be sure to take measures to prevent the TV from toppling over and causing injury.

The supplied wood screw may not be used depending on the type of TV stand. In this case, or when the securing strength is not enough, use commercial screws 3 to 4 mm (1/8 to 3/16 inches) diameter to fit to the TV stand. Consult your dealer about the types of screw.
**Bundling the Connecting Cables**

You can bundle the connecting cables as illustrated below.

Do not bundle the AC power cord with other connecting cables.

**Adjusting the Viewing Angle of the TV**

This TV can be adjusted within the angles shown below.

*Adjust the angle left and right (swivel)*

Top view

Front

When adjusting the angle, hold the stand with one hand to avoid slipping or tipping the TV.
This TV can be installed on a wall by using a wall-mount bracket (sold separately). Be sure to use the specified Wall-Mount Bracket (see page 3). Before mounting the TV on a wall, you must remove the Table-Top Stand from the TV. Follow the steps below to remove the Table-Top Stand, and then refer to the instruction guide “Installing the Wall-Mount Bracket” to prepare the installation and mount the TV on the wall.

Do not remove the Table-Top Stand for any reason other than to wall-mount the TV.

Follow the simple steps below to remove the Table-Top Stand:
1. Disconnect all the cables from the TV.
2. Place the TV, with its screen facing down, on a stable, soft cloth-covered work surface.
3. Rotate the cable holder by 90 degrees, and pull it out.
4. Remove the four screws and the Table-Top Stand from the TV.

For bracket installation, refer to the instruction guide “Installing the Wall-Mount Bracket” provided with the TV. Sufficient expertise is required in installing this TV, especially to determine the strength of the wall for withstanding the TV’s weight. For product protection and safety reasons, Sony strongly recommends that you use the Wall-Mount Bracket model designed for your TV and the wall-mounting of your TV should be performed by Sony dealers or licensed contractors.

Be sure to store the removed screws and Table-Top Stand in a safe place until you are ready to reattach the Table-Top Stand. Keep the screws away from small children.
Setting Up the Channel List – Initial Setup

After you finish connecting the TV, you can run the Initial Setup to create a list of available analog and digital channels. The Initial Setup screen appears when you turn on the TV for the first time after hooking it up.

1. Press \( \text{POWER} \) to turn on the TV.
   The Initial Setup screen appears.

   2. Press \( \text{V} / \text{v} \) to highlight the on-screen display language. Then press \( \text{OK} \).
   The message “First please connect cable/antenna. Do you want to start Auto Program?” appears.

3. Press \( \text{B} / \text{b} \) to highlight “OK” then press \( \text{OK} \).
   The message “Auto Program” appears. Then the message “Continue programming digital channels?” appears. This may require 50+ minutes for completion.

4. Press \( \text{B} / \text{b} \) to highlight “OK” then press \( \text{OK} \).

To run Auto Program again at a later time

- Use the Auto Program feature as described on pages 37 and 38.

To add individual digital channels

- Use the Digital Channels feature as described on page 38.
Remote Control

<tbody>
<tr>
<td>1 TV/VIDEO</td>
<td>Press repeatedly to cycle through the video inputs. See page 32 on setting up the video input labels, including the Skip function.</td>
</tr>
<tr>
<td>2 SLEEP</td>
<td>Press repeatedly until the TV displays the time in minutes (Off, 15, 30, 45, 60, 90 or 120) that you want the TV to remain on before shutting off. To cancel Sleep Timer, press SLEEP repeatedly until Off appears.</td>
</tr>
<tr>
<td>3 FREEZE</td>
<td>Press once to display a frozen image of the current program in a window. Press again to return to the program.</td>
</tr>
<tr>
<td>4 PICTURE</td>
<td>Press repeatedly to cycle through the available picture modes: Vivid, Standard, Custom. The picture modes can be also accessed in the Picture settings. For details, see “Using the Picture Settings” on page 26.</td>
</tr>
<tr>
<td>5 GUIDE (Digital channels only)</td>
<td>Press to display the guide when you are watching digital channels (if it is available from the station).</td>
</tr>
</tbody>
</table>

**Using the Guide**

The guide allows you to select the channels from a channel list. The guide also provides information about the current program being shown on each channel.

(Continued)
Using the Program Options Setting

The program options setting allows you to customize the program settings on the currently tuned channel.

- **Alternate Audio**: Each program has a main video and audio stream (the video or audio that you see or hear when the channel is first tuned), and may have alternate streams. This option allows you to select from the alternate audio stream, when the broadcaster provides an alternate audio stream (for instance, the audio may contain a different language).

*The CHANNEL + button has a tactile dot. Use it as a reference when operating the TV.*
Overview of MENU

MENU provides one-button access for controlling your TV. It enables you to perform a variety of tasks intuitively with a control panel on the screen rather than a variety of remote control button presses.

When you press the MENU button, you can select from basic TV functions such as: switching between external inputs, viewing your favorite analog/digital stations, switching between analog and digital channels, and changing or customizing your TV settings.

1. Press MENU on the remote. The MENU control panel appears.
2. Press ↑/↓ to highlight the item.
3. Press ← to select an option. Press MENU to exit.
### Using the Menus

<table>
<thead>
<tr>
<th>MENU</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="External Inputs" /></td>
<td>The <strong>External Inputs</strong> feature lets you select the external inputs connected to your TV. You can also assign a label using <strong>Label Video Inputs</strong> in the Setup settings. (see page 32)</td>
</tr>
</tbody>
</table>

1. Highlight **External Inputs** on the MENU control panel and press 📈.
2. Press ⬆️/⬇️ to highlight the desired external input and press 📈.

| ![Analog Favorites](image) | The **Analog Favorites** feature lets you select programs from a list of up to 16 favorite channels that you specify. |

1. Highlight **Analog Favorites** on the MENU control panel and press 📈.
2. Press ⬆️/⬇️ to highlight the desired channel and press 📈.
   
   To add the current channel to the list of Favorite Channels, follow step 1 above then highlight and select **Add to Favorites** and press 📈.
   
   To manually edit your list of favorite channels, select **Edit Favorites**. For more information, see page 37.

   Add to Favorites can also be accessed using the TOOLS button on the remote control.

| ![Digital Favorites](image) | The **Digital Favorites** feature lets you create a list of up to 16 favorite channels. To create your favorite list: |

1. Highlight **Digital Favorites** on the MENU control panel and press 📈.
2. Highlight **Add to Favorites** and press 📈 to add the current channel to the list of Favorite Channels.
   
   To add the current channel to the list of Favorite Channels, follow step 1 above then highlight **Add to Favorites** and press 📈.
   
   To edit your list of favorite channels, follow step 1 above then highlight and select **Edit Favorites**. **Reset** will allow you to make the change and **Surf** will take you to the Favorite Channels list.

| ![Analog](image) | The **Analog** feature displays the most recently viewed analog channel. When tuned to the channel, the Channel number will be displayed. |

Highlight **Analog** on the MENU control panel and press 📈.

| ![Digital](image) | The **Digital** feature displays the most recently viewed digital channel. When tuned to the channel, the Program Banner and Channel number will be displayed. |

Highlight **Digital** on the MENU control panel and press 📈.
The Settings feature lets you enter the settings menu. Settings and adjustments can be performed from the Settings menu. The information on various settings starts from page 26.

Navigating Through Settings

1. Press **MENU**.
2. Select **⇒**.
3. Highlight the item: Picture, Sound, Screen, Setup, PC Settings, Analog Setup, Digital Setup.
4. Press **⇒** to select an option.

To exit Settings, press **MENU**.

⚠️ The options you can adjust vary depending on the situation. Unavailable options are grayed out or not displayed.

</thead>
<tbody>
<tr>
<td>Canada</td>
<td>Select to use Canadian ratings (see page 35).</td>
</tr>
</tbody>
</table>

**Label Video Inputs** Allows you to identify A/V equipment you connected to the TV, such as a VCR, DVD, etc. For example, if you have a DVD player connected to the VIDEO 4 jack, you can select the label DVD for the Video 4 input. Then when you press TV/VIDEO to change inputs, the video label you assigned to that input appears on screen.

1. Press †/‡ to highlight the video input (Video 1-8) to which you want to assign a label. Then press † to select the input.

2. Press †/‡ to highlight one of the displayed labels. Then press † to select the label.

You can select from the following labels for each input:

Video 1-7  —, DVD, Cable Box, Satellite, BD, VCR, Receiver, DVR, Game, Camcorder, Edit, Skip

Video 8  —, PC, Edit, Skip

Edit allows you to create a custom five-character label.

If you select Skip, your TV skips this input when you press the TV/VIDEO button.

The Skip label is useful for inputs to which no equipment is connected.
Using the Menus

### Using the Menus

#### Auto YC
When connecting both VIDEO IN and S VIDEO IN, you can select the jack from which the TV receives the input signal. The TV is by default set to receive S VIDEO input signals.

1. Press TV/VIDEO repeatedly until the desired video input appears.
2. After selecting the Auto YC option, to watch the pictures input from the S VIDEO input jack:
   - Press ‹ › to highlight On, then press .
   - To watch the pictures input from the VIDEO input jack:
     - Press ‹ › to highlight Off, then press .

### Timer Settings

#### Sleep Timer
Set the time in minutes (Off, 15 min, 30 min, 45 min, 60 min, 90 min, or 120 min) that you want the TV to remain on before shutting off automatically.

#### Timer
You can use the Timer to turn the TV on, turn it off, and tune to a specific channel at a scheduled time.

The Timer feature will not be available until you set the Current Time.

1. Press ‹ › to highlight one of the following options, then press .

   - **Set**: Select to set the timer by Day, Time, Duration, Channel and Volume Setup.
   - **Off**: Select to turn off the timer. (Your previous settings are saved.)

2. If you selected Set in step 1, press ‹ › / ‹ › / ‹ › / ‹ › to set the day(s), hour, minute, AM/PM, duration, channel number (VHF/UHF, CATV or Digital), and volume.

   When Digital is selected, the last digital channel you viewed will automatically show when the TV is turned on.

3. Press MENU to exit Settings.

   ✏️ To return to the Timer Settings after programming the Timer or Current Time, press .

   Timer will be set to Off when:
   - Auto Program for analog channels is executed.
   - the AC power cord is disconnected and then reconnected to turn the TV on and the Current Time is displayed as --:-- --.

#### Current Time
Select to set the current time (day, hour, minute, and AM/PM).

1. Press ‹ › to select Current Time.
2. Press ‹ › / ‹ › / ‹ › / ‹ › to set the current time (day, hour, minute, and AM/PM).
3. Press MENU to exit Settings.

### Power Saving
Select to reduce the power consumption by adjusting the backlight brightness. This also enhances the black level. Select from Off, Low, High and Picture Off.

### Light Sensor
Select On to enable the automatic picture (screen) brightness control. The light sensor measures the room brightness which allows the TV to automatically adjust the backlight brightness based on the picture settings and the ambient room light conditions.

Be sure not to put anything around the sensor, as its function may be affected.

In low light the range of the backlight control is reduced when Light Sensor is set to On.

### Quiet Power On
Select to have the TV volume start at the minimum volume and gradually change to the set level when you turn it on.

---

*Option* | *Description*
---|---
Auto YC | When connecting both VIDEO IN and S VIDEO IN, you can select the jack from which the TV receives the input signal. The TV is by default set to receive S VIDEO input signals.

1. Press TV/VIDEO repeatedly until the desired video input appears.
2. After selecting the Auto YC option, to watch the pictures input from the S VIDEO input jack:
   - Press ‹ › to highlight On, then press .
   - To watch the pictures input from the VIDEO input jack:
     - Press ‹ › to highlight Off, then press .

Timer | You can use the Timer to turn the TV on, turn it off, and tune to a specific channel at a scheduled time.

The Timer feature will not be available until you set the Current Time.

1. Press ‹ › to highlight one of the following options, then press .

   - **Set**: Select to set the timer by Day, Time, Duration, Channel and Volume Setup.
   - **Off**: Select to turn off the timer. (Your previous settings are saved.)

2. If you selected Set in step 1, press ‹ › / ‹ › / ‹ › / ‹ › to set the day(s), hour, minute, AM/PM, duration, channel number (VHF/UHF, CATV or Digital), and volume.

   When Digital is selected, the last digital channel you viewed will automatically show when the TV is turned on.

3. Press MENU to exit Settings.

   ✏️ To return to the Timer Settings after programming the Timer or Current Time, press .

   Timer will be set to Off when:
   - Auto Program for analog channels is executed.
   - the AC power cord is disconnected and then reconnected to turn the TV on and the Current Time is displayed as --:-- --.

Current Time | Select to set the current time (day, hour, minute, and AM/PM).

1. Press ‹ › to select Current Time.
2. Press ‹ › / ‹ › / ‹ › / ‹ › to set the current time (day, hour, minute, and AM/PM).
3. Press MENU to exit Settings.

Power Saving | Select to reduce the power consumption by adjusting the backlight brightness. This also enhances the black level. Select from Off, Low, High and Picture Off.

Light Sensor | Select On to enable the automatic picture (screen) brightness control. The light sensor measures the room brightness which allows the TV to automatically adjust the backlight brightness based on the picture settings and the ambient room light conditions.

Be sure not to put anything around the sensor, as its function may be affected.

In low light the range of the backlight control is reduced when Light Sensor is set to On.

Quiet Power On | Select to have the TV volume start at the minimum volume and gradually change to the set level when you turn it on.

US Models: Selecting Custom Parental Lock Rating Options
To select custom rating options for the U.S., select U.S.A. in the Select Country setting (see page 32).

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
</table>
| Movie Rating | G | All children and general audience.  
| | PG | Parental guidance suggested.  
| | R | Restricted viewing, parental guidance is suggested for children under 17.  
| | NC-17 and X | No one 17 or under allowed. |
| TV Rating | Age-Based Ratings | TV-Y | All children.  
| | TV-Y7 | Directed to children age 7 and older.  
| | TV-G | General audience.  
| | TV-PG | Parental guidance suggested.  
| | TV-14 | Parents strongly cautioned.  
| | TV-MA | Mature audience only.  
| Content-Based Ratings | FV | Fantasy violence.  
| | D | Suggestive dialogue.  
| | L | Strong language.  
| | S | Sexual situations.  
| | V | Violence.  

⚠️ To ensure maximum blocking capability, set the Age-Based Ratings.

| Unrated | Block programs or movies that are broadcast without a rating | Allow | Allows programs and movies that are broadcast without a rating.  
| | | Block | Blocks all programs and movies that are broadcast without a rating.  

⚠️ If you block unrated TV programs, be aware that the following types of programs may be blocked: programs broadcast from another country, emergency broadcasts, political programs, sports, news, public service announcements, religious programs and weather.
**Canadian Models: Selecting Custom Parental Lock Rating Options**

To select custom rating options for Canada, select Canada in the Select Country setting (see page 32).

#### Parental Lock

The Parental Lock option in the Digital Setup settings allows you to set up the TV to block digital programs that contain digital ratings.

- **Password**
  - If the password has not been set, or to change the password, use Change Password option in the Setup settings (see page 32).
- **Digital Rating**
  - Off Turn Parental Lock off. No programs that contain downloadable ratings are blocked from viewing.
  - Custom... Select to block programs based on downloadable ratings.
  - Clear All Select to clear the entire downloadable rating system.

  - **This setting is only available if digital ratings have been downloaded by your TV and ratings have been set for U.S.A. in the Setup settings (see page 32).**

#### Programming Caption Vision

If you selected the Program option under Caption Vision, you can change the following settings:

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>

| Noisy picture. |  
|  ❑ Make sure that the antenna is connected using the supplied 75-ohm coaxial cable.  
|  ❑ Keep the antenna cable away from other connecting cords.  
|  ❑ To avoid TV interference, make sure to use an undamaged antenna cable. |  |

(Continued)
<table>
<thead>
<tr>
<th>Problem</th>
<th>Possible Remedies</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>No sound/Noisy sound</strong></td>
<td></td>
</tr>
</tbody>
</table>
Good picture, no sound.  
- Check the volume control.  
- Press MUTING or VOL + so that “Muting” disappears from the screen (page 20).  
- Disconnect your headphones.  
- Set Speaker to On in the Setup settings (page 34). If it is set to Off, sound is not output from the TV’s speakers regardless of the TV’s volume control.  
Audio noise.  
- Make sure that the antenna is connected using the supplied 75-ohm coaxial cable.  
- Keep the antenna cable away from other connecting cords.  
Wide Mode changes automatically.  
- The current Wide Mode setting is automatically replaced with the 4:3 Default setting when you change the channel or video input, if 4:3 Default in the Screen settings is set to other than Off. If you want to lock in the Wide Mode selected with the WIDE button, set 4:3 Default to Off in the Screen settings (page 29).  
- Check the Auto Wide option in the Screen settings (page 29).  
“Black box” on screen.  
- You have selected a text option in the Setup/Digital Setup setting and no text is available. (See pages 31 and 39 to reset Setup selections.) To turn off this feature, set the Caption Vision option to Off. If you were trying to select closed captioning, select CC1 instead of Text1-4.  
Black bands appear at the top and bottom of the screen.  
- Some wide screen programs are filmed in aspect ratios that are greater than 16:9 (this is especially common with theatrical releases). Your TV will show these programs with black bands at the top and bottom of the screen. For more details, check the documentation that came with your DVD (or contact your program provider).  
Certain programs on DVD or other digital sources display a loss of detail, especially during fast-motion or dark scenes.  
- The compression used by certain digital broadcasts and DVDs may cause your TV’s screen to display less detail than usual, or cause artifacts (small blocks or dots, pixelations) to appear on your screen. This is due to your TV’s large screen and ability to show very fine detail, and is normal for certain digitally recorded programs.  
Remote control does not operate.  
- Check the polarity of the batteries or replace the batteries.  
- Point the remote control at the remote control sensor of the TV.  
- Fluorescent lamps can interfere with your remote control operation; try turning off the fluorescent lamps.  
- Keep the remote control sensor area clear from obstacles.  
Some digital cable channels are not being displayed.  
- Certain cable companies have limitations on the broadcast of digital cable channels. Check with your cable company for more information.  
- The digital cable channel may be set to Hidden in the Show/Hide Channels setting (see page 38).  
Lost password.  
- Select the Parental Lock settings on the Setup settings, then enter the following master password: 4357. The master password clears your previous password and allows you to enter a new password (page 32).  
How to reset the TV to factory settings.  
- Turn on the TV. While holding down the button on the remote control, press the POWER button on the TV. (The TV will turn itself off, then back on again.) Release the button.  
WARNING: The Reset will clear all of your customized settings including Parental Lock setting.

- This TV’s PC input does not support Sync on Green or Composite Sync.
- This TV’s PC input does not support interlaced signals.
- For the best picture quality, it is recommended to use the signals (boldfaced) in the above chart with a 60Hz vertical frequency from a personal computer. In plug and play, signals with a 60Hz vertical frequency will be selected automatically.
## Other Information

### Specifications

**For All Models**

#### Television system:
- NTSC
- ATSC (8VSB terrestrial)
- QAM on cable

**Panel System:** LCD (Liquid Crystal Display) Panel

**Display resolution (horizontal × vertical):** 1,920 dots × 1,080 lines

**VIDEO IN 1/2/3:**
- S VIDEO (4-pin mini DIN) (VIDEO 1/2 only):
  - Y: 1.0 Vp-p, 75 ohms unbalanced, sync negative
  - C: 0.286 Vp-p (Burst signal), 75 ohms
- VIDEO: 1 Vp-p, 75 ohms unbalanced, sync negative
- AUDIO: 500 mVrms (100% modulation)
  - Impedance: 47 kilohms

**HD/DVD IN 4/5:**
- YPbPr (Component Video):
  - Y: 1.0 Vp-p, 75 ohms unbalanced, sync negative
  - PB: 0.7 Vp-p, 75 ohms
  - PR: 0.7 Vp-p, 75 ohms
- Signal format: 480i, 480p, 720p, 1080i
- AUDIO: 500 mVrms (100% modulation)
  - Impedance: 47 kilohms

**HDMI IN 6/7:**
- HDMI: Video: 480i, 480p, 720p, 1080i
  - Audio: Two channel linear PCM 32, 44.1 and 48 kHz, 16, 20 and 24 bits
- AUDIO (HDMI IN 6 only):
  - 500 mVrms (100% modulation)
  - Impedance: 47 kilohms

**AUDIO OUT:**
- 500 mVrms (100% modulation)
- More than 1 Vrms at the maximum volume setting (Variable)
- More than 500 mVrms (Fixed)

**PC AUDIO INPUT:**
- Stereo mini jack, 0.5 Vrms, 1 kilohm

**Headphones:**
- Stereo mini jack
- Impedance: 16 ohms

**Speaker output:**
- 10W + 10W

**Power Requirement:**
- 120 V-240 V AC, 50/60 Hz

**Supplied accessories:**
- Remote control RM-YD012 (1)
- Size AA batteries (2)
- 75-ohm coaxial cable (1)
- AC power cord (1)
- HD15-HD15 cable (1)
- Support belt (1), securing screw (1) and wood screw (1)
- Cable holder (1)
- Operating Instructions (1)
- Quick Setup Guide (1)
- Warranty Card (1)
- Online Registration Card (U.S.A. only) (1)

**Optional accessories:**
- Headphones plug adapter
- Connecting cables
- Wall-Mount Bracket: SU-WL51
