Quick Setup Guide

In the Box
- Internet Player (1)
- Remote control (Remote) (1)
- AC power cord (1)
- Size AA batteries (2)
- IR (infrared) Blaster cable (1)

1. Connect to the TV and Cable/Satellite Box*

   **When connecting to the TV directly**

   ![Diagram of connecting to the TV directly]

   **When connecting to the TV via an AV Receiver**

   ![Diagram of connecting to the TV via an AV Receiver]

2. Prepare for network connection

   Skip to step 3 if you want to use a wireless connection.

3. Connect to the power source

   ![Diagram of connecting to the power source]

4. Switch the TV input to “HDMI"

   If the setup screen is not displayed, switch your TV to the HDMI input to which the player is connected.

5. Start the Initial Setup Wizard

   First, a screen that shows how to setup your remote appears. Follow the directions for the Initial Setup displayed on screen.

---

* You can use this player without a Cable/Satellite Box, but doing so limits the availability of various TV viewing functions.
Troubleshooting

The player does not work, or you want to reboot the player.
Press \(\text{(Control)}, \text{(Shift)}\) and \(\text{ }\text{(Backspace)}\) at the same time on the keyboard of the remote to reboot the player. If the player still does not work, disconnect the AC power cord from the player and reconnect it. This does not initialize the player settings or other such settings.

There is no picture (screen is dark).
- Make sure that the AC power cord is securely connected.
- Make sure that all the connecting cables are securely connected. (Especially, make sure HDMI IN and OUT are correctly connected.)
- Change the input of the TV to display the signal from this player.
- Make sure that the power indicator is lit up white as illustrated below.

- Disconnect a Cable/Satellite Box to the HDMI IN jack. (When you press TV, GUIDE, or DVR on the remote, the image from the device connected to the HDMI IN jack will appear on the TV screen.)
- Press \(\text{(HOME)}\) on the remote, and then select any application other than Live TV to return to the player screen.
- Try the following:
  - Turn the player off and on again.
  - Turn the connected device off and on again.
  - Disconnect and reconnect the HDMI cable.
  - Disconnect the AC power cord from the player and reconnect it after about two minutes.
  - The HDMI OUT jack is connected to a DVI device that does not support copyright protection technology.

The remote does not function.
- Disconnect and reconnect the AC power cord. If the remote still does not function, re-pair the remote with the player by following the procedure below.
  ① Press shortly the CONNECT button, located on the bottom of the player, with a thin, sharp object such as the point of a pen, etc.
  ② Follow the instructions on the screen.

The LED on the remote is flashing.
- The remote is being paired. Perform pairing according to the instructions on the screen.
- The LED on the remote continues to flash after pairing is complete because the remote is connecting with the player. This is not a malfunction. The LED on the remote flashes faster when it starts connecting with the player.

The remote cannot be used to control connected devices.
- Install the player close to the connected devices so that the built-in IR Blaster can send remote commands to the devices.

- Make sure that HDMI cables are connected securely to the Cable/Satellite Box and to the AV Receiver.
- Turn the Cable/Satellite Box off, then turn it on again.
- If the picture is still not output correctly, reconnect the TV directly to the player, and connect AV Receiver and the player with an optical digital cable as illustrated below.

The picture from the Cable/Satellite Box is not output correctly (via an AV Receiver).
- Make sure that HDMI cables are connected securely to the Cable/Satellite Box and to the player.
- Turn the Cable/Satellite Box off, then turn it on again.
- If the picture is still not output correctly, reconnect the TV directly to the player, and connect AV Receiver and the player with an optical digital cable as illustrated below.

- Disconnect and reconnect the HDMI cable.
- Turn the connected device off and on again.
- Turn the player off and on again.
- Make sure that HDMI cables are connected securely to the Cable/Satellite Box and to the AV Receiver. (When you press TV, GUIDE, or DVR on the remote, the image from the device connected to the HDMI IN jack will appear on the TV screen.)
- Move the player away from devices that use a 2.4 GHz frequency band (microwaves, Bluetooth devices, cordless digital devices, etc.), or turn off such devices. These devices may interrupt the communication between the player and the Wireless LAN router.
- If you need MAC address in the Initial Setup Wizard, please select “Explain step” on “Connect to the Internet” screen.
- Move the player and the Wireless LAN router closer to each other. The Wireless LAN connection is affected by the surrounding environment (the wall material, radio wave receiving condition, obstacles between the player and the Wireless LAN router, etc.).
- Move the player away from devices that use a 2.4 GHz frequency band (microwaves, Bluetooth devices, cordless digital devices, etc.), or turn off such devices. These devices may interrupt the communication between the player and the Wireless LAN router.
- If you need MAC address in the Initial Setup Wizard, please select “Explain step” on “Connect to the Internet” screen.

I cannot find the model number of my Cable/Satellite Box or TV in the Initial Setup Wizard.
- Select a different model number and check that the corresponding device works.

Product Registration

Please take a few minutes to register your product. This also allows us to contact you with important product notifications, or provides a record in case of product loss or theft.

From your player
Press \(\text{(HOME)}\) and select [All Apps] - [Product Registration]

From your PC
http://productregistration.sony.com/

See the “Help Guide” for complete instructions

The Help Guide gives you detailed information on how to use the player. Video Tutorials are provided to introduce key features and explain the setup process.

From your player
Press \(\text{(HOME)}\) and select [All Apps] - [Help Guide]

From your PC or smartphone
You can also access the Help Guide from a PC or smartphone.
