The Sony touch in styling, shooting and sharing. The ultra-slim 8.1 MP Cyber-shot® DSC-T70 comes four cool lifestyle colors, with giant 3.0” Widescreen touch-panel LCD, advanced Smile Shutter and Face Detection to bring out the best in everyone. Also: the Sony Double Anti-Blur Solution, spectacular HD Output2, Stamina® power.

- Sleek, Slim-Line Vertical Design
The ultra-compact DSC-T200 has an elegant look all its own – in shining silver, matte black or deep red, with vertical styling and a huge 3.5” Widescreen touch-panel LCD that fills up the entire back of the camera and replaces function buttons with elegant on-screen icons.

- 8.1 MP Super HAD™ CCD
More megapixels give you more detail and definition when you make big prints or crop in tight on your subject. The advanced Sony® Super HAD™ (Hole Accumulated Diode) CCD design allows more light to pass to each pixel, increasing sensitivity and reducing noise.

- Carl Zeiss® 5X Optical Zoom Lens Design
5X Optical zoom brings you even closer to the action, for great action shots, distant landscape views and dramatic portraits. An ingenious Carl Zeiss® lens design uses internal zooming, so even at full zoom the lens doesn’t project beyond the ultra-slim camera body.

- The Sony Double Anti-Blur Solution
With Super SteadyShot® optical image stabilization and high sensitivity (ISO 3200), the DSC-T200 compensates for shaky hands, minimizes blur and allows flash-free shooting to preserve the mood — and Sony Clear RAW™ Noise Reduction reduces the picture noise that can ruin low-light shots.

- 3.5”1 Widescreen Clear Photo LCD Plus™ Display
The DSC-T200 puts a huge 3.5” Widescreen LCD in the palm of your hand, with Clear Photo LCD Plus™ design that displays photos in superb clarity and natural color – with AR (anti-reflective) coating for excellent visibility even in bright sunlight.

- Touch-Screen Operation
The DSC-T200’s Widescreen touch-panel LCD replaces small buttons with simple on-screen icons and a user-friendly interface that makes camera operation faster and simpler. In shooting mode, you can touch any point on screen to focus on the person or object you’ve selected – and touch and zoom in playback mode to concentrate on your subject.

- Simple Icon Setup Controls
To the left and right of the image area on your widescreen display, simple icons allow quick touch-screen operation of essential camera functions. The icons can be switched off to provide a full 16:9 widescreen view of your photos – and the on-screen Function Guide display helps you learn camera setup operations.

- Face Detection
Because the face makes the photo, Sony has created Face Detection technology that recognizes up to 8 faces in a photo and automatically controls focus, exposure, color and flash to bring out the best in everyone. Unlike some competitive systems, Sony Face Detection makes skin tones look more natural and reduces red-eye with pre-strobe flash.

- Smile Shutter Mode
In Smile Shutter Mode, the DSC-T200 helps you capture more smiles by shooting automatically when your subject laughs, smiles, even grins - only when focus is fixed. You select the person to watch and the expression to detect – and your Cyber-shot® camera’s Face Detection system and intelligent Smile Shutter algorithm do the rest!

- HD Output2
Direct HD output2 to your Sony Bravia® HDVT or other compatible HDTV screen lets you view DSC-T200 still photos in spectacular clarity and detail. Optional HD solutions include a Cyber-shot® cradle/charger with component cable output, or component cable directly to your HDTV.

- Multi-Resizing Function
The in-camera feature that resizes your photos for any purpose! Standard 4:3 can be resized to widescreen 16:9 and 2 MP for giant-screen HDTV display2 – and images at 16:9 and larger than VGA resolution can be resized to 4:3 VGA for sharing with friends and family via e-mail (internet connection required). A simple 4-direction touch-screen control also makes it easy to trim photos.

- Wide Zoom Display
To use the entire image area of your DSC-T200 Widescreen LCD and compatible HDTV2 screens, Wide Zoom automatically expands standard 4:3 images to 16:9.

- HD Slide Show with Music
It’s the high-definition viewing experience that makes photos more entertaining to watch, accompanied by your choice of visual effects and any of four preset music selections stored in memory or your favorite music downloaded from PC to your camera for use as background music4.

- 9-Point Auto Focus
Because an off-center subject can make your shot more interesting, the DSC-T200 can measure auto-focus precision at 9 points on your screen – giving you greater creative freedom to compose your image.

- D-Range Optimization
Powered by the exclusive Sony Bionz™ high-speed processing engine, D-Range Optimization preserves image data in bright highlights and reveals more detail in shadows or backlit areas – for great results even in difficult lighting conditions.

- In-Camera Retouching
The DSC-T200 lets you add 8 creative effects to photos after you shoot – including new “radial blur” effect, retro color tint and trimming function along with soft edge filter to soften backgrounds, cross filter to place stamy “dazzles” at highlight points, partial color filter to...

- In-Camera Red-Eye Reduction
Irritating “glowing eyes” can ruin even the most creative photos – so the DSC-T200 provides in-camera correction at the touch of a button to reduce lingering red-eye effect that other systems might miss.

ADDITIONAL FEATURES
- Enhanced Paint Function
- 31 MB Internal Memory

DSC-T200
Cyber-shot® Digital Still Camera

Specifications

General
Megapixel: 8.1 MP
Imaging Device: 1/2.5" Super HAD™ CCD
Recording Media: 31MB internal Flash Memory, optional Memory Stick® PRO Duo Media, optional Memory Stick DUO PRO™ Media

Convenience
White Balance: Automatic, Cloudy, Daylight, Fluorescent 1, Fluorescent 2, Fluorescent 3, Incandescent, Flash
Self Timer: Yes (10 seconds, 2 seconds, Off)
Memory Stick PRO™ Media Compatibility: Tested to support up to 8GB Memory Stick DUO PRO™ media capacity; does not support Access Control security function.
Still Image Mode(s): Burst, JPEG (Fine), Exposure Bracketing
Red-Eye Reduction: Yes (On/Off all modes)
Burst Mode: 100 shots at 2.2 fps (all resolutions)
Erase/Protect: Yes/Yes
Date/Time Stamp: No/No
Media/Battery Indicator: Yes/Yes
Color Mode(s): Black & White, Natural, Sepia, Vivid

Convenience Features
Real Imaging Processor™ Technology: Yes - Bionz
AF Illuminator Light: Yes
PicBridge Compatible: Yes
Multi-Pattern Measuring: Yes
SteadyShot® Image Stabilization: Yes
Scene Mode(s): Beach, Fireworks, High Speed Shutter, High Sensitivity, Landscape, Snow, Soft Snap, Twilight, Twilight Portrait, Smile Shutter
Movie Mode(s): MPEG VX Fine with Audio (640x480 at 30fps) (MPEG VX fine requires Memory Stick DUO PRO™ media), MPEG VX Standard with Audio (640x480 at 16.6fps), Presentation Mode (320 x 240 at 8.3fps).
Power Save Mode: Yes (after approx. 3 min. of inactivity)
In-Camera Editing: Red-eye correction, soft edge filter, cross filter, partial color filter, fish-eye filter, retro, radiatIon, trimming

Inputs and Outputs
Accessory Terminal: N/A
Audio/Video Output(s): Yes via Multi-Use Connector
USB Port(s): Yes (Supports USB 2.0)
HD Output: Yes (1080i) with optional accessory

Hardware
LCD: 3.5" (230K Pixels) Clear Photo LCD™ Plus screen
Viewfinder: N/A
Lens Construction: 12 Elements in 10 Groups, 3 Aspheric Elements, 1 prism
Microphone/Speaker: Yes/Yes
Lens Type: Carl Zeiss® Vario-Tessar®
Docking Station: Yes, via optional HD cradle

Operating Conditions
Flash Effective Range: ISO Auto: 4" to 12" (0.1-3.7m)(W), ISO 3200: 4" to 24" (0.1-7.4m)(T)
Flash Mode(s): Auto, Forced On, Forced Off, Slow Synch

Optics/Lens
Focal Length: 5.8 - 29mm
35mm Equivalent: 35 - 175 mm
Focus: 9 Area Multi-Point AF, Center AF
Aperture Range: F3.5-10 (Auto/Program Auto)
Shutter Speed: 1/4-1/1000 sec. (Auto), 1"-1/1000 sec. (Program Auto)
Exposure Compensation: ±2.0 EV, 1/3 EV Step Increments
ISO: Auto, 80, 100, 200, 400, 800, 1600, 3200
Filter Diameter: N/A
Smart Zoom® Technology: Up to 6.3X (5MP), 8.0X (3MP), 8.5X (16:9 2MP) 25X (VGA Resolution)
Digital Zoom: 2X (Precision)
Optical Zoom: 5X
Macro Mode: Yes
Total Zoom: 10X
Minimum Focus Distance: 19-11/16" (50cm) Normal, 3-1/8" (8cm) Macro, 3/8" (1cm) Magnifying Glass
Face Detection: Yes

Power
Battery Type: Lithium-Ion NP-801
Battery Capacity: 3.6V, 680 mAh

Software
Supplied Software: Windows: Picture Motion Browser Vers 2.1 + USB Driver
Operating System Compatibility: Microsoft® 2000 Professional, Me, XP Home and Professional, and Vista; Macintosh® OS 9.1/9.2/OS X (10.1-10.4)

Processor
Bionz™ Engine: Yes (LSI with Dynamic Range Optimizer (DRO))

Dimensions
Weight: 5.6 oz (160 g) Body; 6.6 oz. (186 g) including Battery and optional Memory Stick® DUO Media Measurements: 3 11/16" x 2 5/16" x 13/16" (93.5 x 59.3 x 20.4 mm)

Service and Warranty Information
Limited Warranty Term: 1 Year Parts & Labor

Supplied Accessories
NP-801 rechargeable battery
BC-DC5 battery charger
A/V and USB multi-connector cables
Adapter plate for cradle
Wrist strap
Paint Pen Software CD-ROM
Note: No Memory Stick® DUO media or adaptors are included.

Optional Accessories
Accessory Kit (ACC-C LG8)
Color: Silver
UPC Code: 027242713314
