ICD-80

FEATURES

- **RECORDS ON IC (INTEGRATED CIRCUIT CHIP)** instead of tape for recording with distortion-free clarity
- **UP TO 48 MINUTES OF RECORDING TIME** is available on the integrated circuit chip which may be recorded over and used again.
- **5 MESSAGE FILES (4 REGULAR/1 SECRET)** provide separate message areas for different applications (ACTION/SCHEDULE/MEMO-1/MEMO-2/SECRET)
- **UP TO 99 MESSAGES IN EACH FILE** can be recorded before the recorder is full
- **DIGITAL VOR** lets the recorder start and stop with your voice, with no clipping, conserving valuable recording time
- **3-LEVEL PRIORITY FUNCTION** lets you mark the importance of a message by automatically moving it to the beginning of the messages in each file.
- **FULL FUNCTION BACKLIT LCD DISPLAY** provides a highly visible and accurate display of all record/playback functions
- **SEPARATE STOP AND RECORD BUTTONS** make it easy to operate
- **JOG DIAL PLAYBACK OPERATION** makes it easy to locate each message for playback
- **PLAYBACK PAUSE CONTROL** enables you to stop the playback and continue where you stopped, eliminating the need to review the entire message each time you stop
- **INDICATES RECORDED DATE AND TIME** verifying when the message was recorded
- **MICROPHONE JACK** allows using an external microphone for special applications
- **ALARM FUNCTION FOR EACH MESSAGE** alerts the user with a spoken message when a preset time is reached
- **RANDOM ACCESS TO ANY MESSAGE** is easy using the jog dial operation
- **PLAYBACK VOLUME CONTROL** provides adjustment of playback sound level for privacy
- **EARPHONE JACK** allows listening through an external listening device
- **TIMER FUNCTION** allows you to set a count-down timer (up to 120 minutes) which will sound an alarm when the time is up
- **SECRET FILE** enables you to record messages protected by a 4-digit number which prevents others from playing them back
