▲ **STEP-UP FEATURE** ▶ **NEW FEATURE**

features

- ▲ **INCLUDES DRAGON NATURALLY SPEAKING™ PREFERRED VOICE TO PRINT SOFTWARE Ver. 6.0** to easily convert your recorded files into text
- **UP TO 5 HOURS 39 MINS RECORDING TIME** is available on the integrated circuit chip which may be recorded over and used again
- **USB COMPATIBLE FOR FAST TRANSFER RATE TO A PC** via USB port on a PC
- **VOICE TO PRINT COMPATIBLE** allows recorded files to be converted to 16 bit WAV files
- **HIGH QUALITY SOUND—“NEW LPEC™ CODEC”** with extended frequency response ensures excellent recorded sound clarity
- **VOICE E-MAIL FUNCTION** lets you easily send audible e-mail with the attached files
- **SLIM STYLE DESIGN** only one-half inch thick, with Record and Pause controls located on the side of the unit for easy operation; fits neatly into a shirt pocket and includes a convenient pocket clip to help avoid misplacing the recorder
- **EASY TO USE PLAYBACK/EDIT FUNCTION** lets you begin playback with the press of a button, then edit the recordings with equal ease
- **5 MESSAGE FILES FOR DICTATION** provide separate message areas for different applications such as business memos or personal reminders, for better organization and faster access
- **FULL FUNCTION LCD DISPLAY** shows number of messages recorded, recording length, date, time, and battery power remaining
- **ONE BUTTON PLAY FROM RECORD** lets you switch from Recording mode to Play mode with one finger
- **INCREMENTAL REWIND (EASY SEARCH)** is the equivalent of tape Fast Rewind but without returning all the way to the beginning of each recording, to help locate specific passages
- **ADVANCED DIGITAL VOR (VOICE OPERATED RECORDING)** stops the recording during silent pauses, saving valuable recording time, then begins recording again without missing a single syllable thanks to the digital buffer
- **16MB BUILT-IN FLASH MEMORY** uses IC chip, which may be recorded over itself and used again and again, with distortion-free clarity
- **BUILT-IN MICROPHONE** for extra convenience, eliminates the need for an external microphone
- **BUILT-IN PLAYBACK SPEAKER** for monitoring playback of recordings
- **RECORD-PAUSE FUNCTION** temporarily stops recording to allow for pauses in dictation or to provide time for reference to documents, then resumes where recording was stopped, at the press of a button
- **ADD-RECORDING FUNCTION** allows you to insert and add additional information to any message without affecting the original
- **BATTERY STRENGTH LCD** provides a visible signal when battery strength is low
- **PLAYBACK SPEED CONTROL** allows recordings to be heard at slower than normal speeds to facilitate transcribing or editing, or faster than normal to move quickly to a desired portion

- **HOLD SWITCH** prevents accidental operation or changes to settings while carrying the unit in pocket or briefcase
- **A-B REPEAT FUNCTION** enables a specific segment of the recording to automatically play over and over again
- **HI/LO MIC SENSITIVITY** enables the unit to record different situations, from group meeting to individuals, more effectively
- **EARPHONE JACK** allows listening through earphones for privacy or transcription
- **MIC JACK** allows connection of an external microphone for special recording applications
- **LED OPERATION INDICATORS (RECORD/PLAY)** indicates Red when unit is recording, Green when in playback mode
- **WINDOWS® 98/2000/Me/XP COMPATIBLE**
