SAT-A65(A)

Digital Satellite Receiver

KEY TECHNOLOGY

Dolby Digital Capable the SAT-A65(A) is equipped with optical digital outputs as well as a built-in Dolby® Digital Decoder for superb multi-channel surround sound.

SRS® TruSurround™ Generates lifelike surround sound from your existing television speakers.

Media Window™ Enables you to continue watching television while you check the next 2 hours of programming information on 4 stations at a time. It also Finds programs up to 3 days in advance.

Channel Mark Holds up to 9 favorite stations. Access the channel mark guide by pressing select on the remote.

Search Allows you to find programming using key “search words”. The guide automatically finds shows that match.

Favorite Channel Create up to 4 guides with your favorite channels. Select a guide for each family member, or 1 for each of your favorite kinds of programming.

Timer Feature Automatically reminds you of up to 32 upcoming or recurring programs.

DIRECTV Interactive™ Interactive features include timely reminders about TV programming, Shopping opportunities and “Virtual Channels” with exciting new services

Caller ID With Call History Allows you to view incoming call information right on your television screen. You can decide weather to take an incoming phone call without running to the phone. Call history allows you to check the names and numbers of the last 25 callers.

RF Universal Remote Commander® Remote Control Extends usage throughout the home, including inside of cabinets, and controls many brands of Audio Video components, minimizing the amount of remotes necessary to operate different functions.
